Stakeholder Feedback Report about Curriculum (2021-22)

The Indira College of Engineering and Management has its stakeholder's feedback system in which it receives feedback from various stakeholders namely, Students, Teachers, Alumni and Employer.

This feedback plays a vital role in the design and development of the curriculum and its implementation for institutional development.

Objectives:

· To upgrade the teachers in order to improve delivery and /or content of the curriculum.

· To improve the overall quality of the institute as par the stakeholder's expectations.

· To provide students with the opportunity to comment on the quality of their learning experiences.

Stakeholder Feedback regarding Curriculum

Action Taken Report (A.Y. 2021-22)

Stakeholder	Feedback	Action Taken
Student	The latest technology related courses should be included in the syllabus i.e. Devops, Business Intelligence, Full stack web development, App development. The overall academic performance is good and Labs should be upgraded in correspondence to new technology requirements.	Communicated with the University and planned the certification courses for the students.
Faculty	Overall academic performance is very good and ambience of the institute is very pleasant.	
	Simulation related courses to be included in the curriculum. Syllabus is vast and time is very less.	Communicated to the university and planned certification courses for the students on simulation based course.
Alumni	• Content of syllabus need to improve as per industry requirement. Ambience and academic performance of institute is very good. • Industry exposure to be given to students by arranging industry visits	Alumni interaction with the students arranged and planned industrial visits.
Employer	• Industry exposure to be given	Industry expert session, certification courses planned.

**Subject: Submission of recommendations for curriculum implementation.**

The Indira College of Engineering and Management has its Stakeholder feedback system and receive feedback from various stakeholders namely, Alumni, Faculty, Employers and Students. Feedback received has also questions on curriculum and its effective implementation.
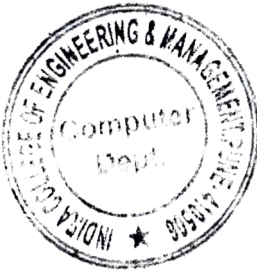

The Following suggestions, which are based on our Stakeholder's feedback, may be taken into considerations while drafting the revised syllabus.
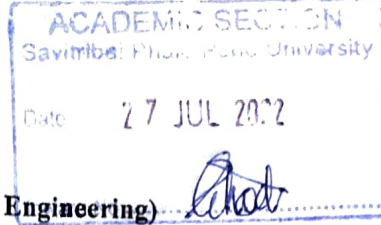

1. DevOps, Data Science, Business Intelligence related courses need to be included.

2. Full Stack Web Development, App Development and AR & VR related courses need to be included.

3. Foreign languages like Japanese, German etc need to be included in the curriculum.

We hope, these inputs given for curriculum enrichment will be considered in the forthcoming syllabus drafting process.
