2.6.1. Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

Head of the department and teachers discussed POs and framed PEOs & PSOs of their program considering the Vision and Mission of the department.

Every course has its own learning outcomes defined by the university in the curriculum and adopted by the institute. Course Outcomes which are not defined in the syllabus of the university are prepared by the respective subject teacher along with domain experts as per of objectives mentioned in the university syllabus.

The Program outcomes and Course outcomes of the department are disseminated to internal and external stakeholders through the following ways:

- HOD cabins
- · Notice Boards
- Department Library
- Department Laboratories
- Course File

The course planner of each subject is prepared according to the program outcomes & course outcomes. The learning outcomes of each subject are also informed to the students by the teachers at the beginning of every academic year during the introductory lecture of respective course and also during lecture delivery.

All newly admitted first year students and their parents are briefed about the institute's vision, mission and program objectives in the Induction Programme.

INDIRA COLLEGE OF ENGINEERING AND MANAGEMENT

Approved By AICTE New Delhi, DTE (MS) and Affiliated to Pune University ACADEMIC YEAR 2021-22

COURSE OUTCOMES COURSE PATTERN 2019 (FY & SY)

YEAR	COURSE	COURSE NAME	OUTCO ME NO.	COURSE OUTCOMES
	101		CO1	To understand the basic concepts of financial accounting, cost accounting and management accounting.
	101	Accounting for Business Decisions	CO2	To know various tools from accounting and cost accounting this would facilitate the decision making
			CO3	To develop analytical abilities to face the business situations
			CO1	To equip the students of management with time tested tools and techniques of managerial economics to enable them to appreciate its relevance in decision making.
	102	Economic Analysis for Business Decisions (SEM (COZ	To explore the economics of information and network industries and to equip students with an understanding of how economics affect the business strategy of companies in these industries.
			CO3	To develop economic way of thinking in dealing with practical business problems and challenges.
	103	Legal Aspects of Business (SEM)	CO1	To acquaint students with general business law issues to help become more informed, sensitive and effective business leaders.
			CO2	To provide the students with an understanding of fundamental legal issues pertaining to the busine world to enhance their ability to manage businesses effectively.
	105	Organizational Behaviour (SEM I	CO1	To gain a solid understanding of human behavior in the workplace from an individual, group and organizational perspective.
			CO2	To obtain frameworks and tools to effectively analyze and approach various Organizational situations.
				To reflect upon your own beliefs, assumptions, and behaviors with respect to how individual groups, and organizations act in order to expand your options of approaches and increase your own effectiveness.
/BA Sem I(2019 Pattern)			CO1	To introduce marketing as a business function and a philosophy
	106	Baries of Manhatian Arthus	CO2	To emphasize importance of understanding external environment in marketing decision making
	400	Basics of Marketing (SEM)	CO3	To expose students to a systematic frame work of marketing &implementations and to highlight nee for different marketing approaches for services, goods, and for household consumers, organizational buyers.
				To explain the various concepts of management
	107	Management Condenses to 571.51		To make the students understand the contemporary management practices
	207	Management Fundamentals SEM I	CO3	To highlight professional challenges that managers face in various organization
			CO4	To enable the students to appreciate the emerging ideas and practices in the field of management.

			CO1	To acquaint the students with fundamentals of communication and help them to transform their communication abilities.
	108	Business Communication Lab (SEM I		To help the students to acquire some of the necessary skills to handle day-to-day managerial responsibilities, such as - making speeches, controlling one-to-one communication, enriching grou activities and processes, giving effective presentations, writing letters, memos, minutes, reports as advertising, and maintaining one's poice in private and in public.
			CO3	To build the students' confidence and to enhance competitiveness by projecting a positive image themselves and of their future.
			CO1	To imbibe in the students, critical sales competencies that drives busing decisions
	110	Selling and Negotiating SkillsLab (SEM I	COZ	To give insights into how to boost individual and organizational productivity through effective sale lead management.
			CO3	To introduce basic theoretical principles and practical steps in the negotiating process.
	115	Fotographic According to	CO1	To acquaint students with basic aspects of an Enterprise.
	1.43	Enterprise Analysis - Desk Research (SEM)	CO2	To guide the students in analyzing an Enterprise w.r.t a set of basic parameters.
			CO3	To help the students assimilate basic jargon and its meaning w.r.t. Enterprise Analysis.
	201	Marketing Management SEM II)	CO1	To introduce the concept of Marketing Mix as a framework for Marketing Decision making
			CO2	To emphasize the need, importance and process of Marketing Planning and Control.
	-		CO3	To sensitize the students to the dynamic nature of Marketing Function.
	5250	Financial Management SEM II)	CO1	To understand various concepts related to financial management.
	202		CO2	To study in detail, various tools and techniques in the area of finance.
			CO3	To develop the analytical skills this would facilitate the decision making in Business situat
	203	Human Resource Management SEM II)	001	To understand the role of HRM in an organization
			002	To learn to gain competitive advantage through people
			CO3	To learn to study and design HRM system
	204		CO1	To understand role of quantitative techniques in managerial decision making.
	204	Decision Science SEM II	002	To understand process of decision problem formulation.
			CO3	To understand applications of various quantitative techniques in managerial settings.
	200	Operations and Supply Chain Management SEM II	CO1	To develop an understanding of the strategic importance of Operations & SCM and how it can pro- a competitive advantage in the marketplace
	205		CO2	To understand the relationship between Operations & SCM and other business functions, such as Marketing, Finance, Accounting, and Human Resources.
ABA Sem 8(2019 Pattern)			CD3	To develop knowledge of the issues related to designing and managing Operations & SCM and the techniques to do so.
			CO1	To develop conceptual understanding about lotest developments in the field of Information
	206	Management Information Systems II SEM)	CO2	Technology and the impact of LT, in managine a business
		- The state of the	C03	To learn to use information Technology to gain competitive advantage in business
1		*	CO1	To learn from, with a view to emulate, entrepreneurial ventures in e-Commerce and m-Commerce
	207	Emotional intelligence and Managerial	CO2	To equip students with individual and group learning methods
		Effectiveness Lab SEM II	-	To understand intelligence and develop emotional competence
			CO3	To develop understanding and competence for personal and managerial effectiveness.
N N	Season 1	5.045505.00.0005656555555	CO1	To encourage students to develop and use balanced self-determined Behavior.
al.	210	Life Skills SEM II	CO2	To help students in enhancing self, increasing life satisfaction and improving relationships with other

			CO3	To develop new ability to practice new problem solving skills in group and use these skills in person life.
			001	To give students mastery of MS Office.
	213	Computer Aided Personal Productivity Tools Lab SEM II	CO2	To enhance personal productivity through advanced features of MS Word, MS Excel & MS PowerPoint
			C03	To impart skills of using MS Outlook and basic social networking tools.
	0.000	Dick	CO1	To help the students understand the dynamics of a specific industry.
	215	Industry Analysis - Desk Research SEM II	CQ2	To acquaint students with various issues particular to an industry.
			CO3	To provide a cross-functional perspective of the functioning of a business enterprise and an industry
	301	220020002200000000000000000000000000000	CO1	To expose participants to various perspectives and concepts in the field of Strategic Management
	301	Strategic Management (SEM III	CO2	To help participants develop skills for applying these concepts to the solution of business problems
			CO3	To help students master the analytical tools of strategic management.
			CO1	To acquaint the students with a perspective of different facets of management of an enterprise
	302	Mobile Application Development	CO2	To provide inputs with reference to the investment Decisions along with the techniques for those decisions
			CO3	To inculcate the evaluation parameters of enterprise in terms of expenses, control systems and prici
			CO4	To develop the knowledge of the concept of auditing and its applicability as performence managements of
	303	Startup and New Venture Management (SEM III	CO1	To instill a spirit of entrepreneurship among the student participants.
	303		CO2	To provide an overview of the competences needed to become an entrepreneur
			CO3	To give insights into the Management of Small Family Business
			001	To offer the opportunity for the young students to acquire on job the skills, knowledge, attitudes, an perceptions along with the experience needed to constitute a professional identity.
	1		CO2	To provide means to immerse students in actual supervised professional experiences.
	304	Summer Internship Project (SEM III	CO3	To give an insight into the working of the real organizations.
			CO4	To gain deeper understanding in specific functional areas.
			CO5	To appreciate the linkages among different functions and departments.
	1 1		C06	To develop perspective about business organizations in their totality.
			C07	To help the students in exploring career opportunities in their areas of interest.
		Contemporary Marketing Research (SEM III	CO1	To give the students an understanding of marketing research from both user's (management) and doer's (the researchers) perspective.
	305MKT		002	To design and produce, evaluate a research proposal & understand the quality of research studies.
	12 9		003	To learn the basic skills to conduct professional marketing research.
			004	To understand the applications of business research tools in Marketing decision making.
	306MKT	the second secon	01	To highlight the importance of understanding consumer behavior in Marketing.
	SOUTHER		002	To study the environmental and individual influences on consumers
		(103	To understand consumer behavior in Indian context.
	2! M		:01	To provide an overview of the range of took available for Marketing Communications

T.	150			20
	2007 8 8 8 8 8		CO2	To provide an understanding of the basic principles of planning and execution in Marketing Communications
	307 MKT	Integrated Marketing Communications (SEM I	CO3	To accusaint the students with concepts and techniques in the application for developing and design an effective advertising and sales promotion program.
			CD4	To sansitize students to the various facets of advertising, public relation and promotion managemen
			CO5	To develop a managerial perspective and an informed decision-marking philips for effect.
	VV003-34400VV		CO1	efficient tackling of promotional situations. To make the students appreciate the various facets of the job of a product managir.
	308MKT	Product Management project	CO1	To highlight the strategic role of product management in organizational and functional context.
			COZ	To emphasize the financial and other metrics of effective product management.
	V /		CO1	To understand the pervasive impact of the Law and our legal system on marketing activities. To highlight how decisions of model of the Law and our legal system on marketing activities.
	313MKT	Marketine and the co	CO2	To highlight how decisions of marketing executives raise issues which should be carefully evaluated a to their legal consequences before they are implemented?
		Marketing and the Law	CO3	The underline that a failure to appreciate these legal implications can lead to seriously damaging, if it disastrous, results for a fires.
	-		CO4	To address National Laws and court decisions that relate to the four main areas of marketing study, to so-called "four P's" of marketing product, price, place and promotion.
	317 MKT	Agricultural Marketing	CO1	The Agricultural sector, offers immerse opportunities for the employment. This sector requires managerial talent for both input and produce side. The course will prepare the students to be employable in agricultural marketing.
MBA Sem III(2019 Pattern)	1		CO2	Understand the functions performed by agricultural marketing system
			C03	Develop strategies to manage the marketing of agriculture organizations
	305FIN	Direct Taxation SEM III	001	To understand the basic concepts in Income Tax Act, 1961.
			CO2	To Calculate Gross Total Income and Tax Liability of an Individual.
	0.000	Financial Systems of India, Markets & Services(CO3	To acquaint with online filling of various forms and Returns.
	306FIN	SEM III	CO1	To enlighten the students with the Concepts & Practical dynamics of the Indian Financial System, Markets, Institution and Financial Services.
	307FIN	Strategic Cost Management	CO1	To acquaint students with various techniques used for Strategic Cost Management
			CO2	To develop an understanding of the adoption of various techniques of Strategic Cost
			CO3	Management for obtaining sustainable competitive advantage
	313 FIN		CO1 CO2	To understand the basics of Banking and the emergence of Banking in India.
		Banking Operations – I		To get acquainted with the functionality of the Banks.
			CO3	To know the meaning and use of commonly used technologies in Banking.
			CO1	To develop an understanding of financial derivatives and the institutional structure of the markets
	315 FIN	Futures and Options III		on which they are traded.
			002	To have an understanding of the analytical tools necessary to price such instruments.
1			003	no nightight the role of financial derivatives in the modern capital markets, in particular for risk management.
	316FIN	Financial Instruments & Derivatives III	01	To provide students with an introduction to the theory and practice of financial instruments.
+	25.57.30		002	market.
		E	01	To give an overview of Planning & Control of Operations
	305OPE		O2	To explain the role of forecasting in the operations planning process.
	STROPE I	Plannine & Control of Operations III	03	To explain the need for aggregate planning and the steps in aggregate planning

11000		CO4	To explain how is capacity planning done in organizations and what is its relationship with MRP.
		CO5	To highlight the importance of scheduling in operations management.
9829325	Spiratrophysics of the sea	CO1	To give an overview of various aspects of inventory.
306 OPE	Inventory Management III	CO2	To explain the impact of types of inventory costs on inventory management decisions.
		CO3	To explain the principles of AT
2000000		001	To understand and appreciate significance of productivity management
307 OPE	Productivity Management III	CO2	To study various productivity management methods
	The state of the s	CO3	To learn applicability of popular productivity management tools
310 OPE	Control of the Contro	CO1	To understand role and importance of Manufacturing Resource Planning (MRP II)
340 076	Manufacturing Resource Planning III	CO2	To know the inputs, processing and outputs of MRP II
		C01	
313 OPE	Designing Operations Systems III	CO2	To give an overview of the various process options in Manufacturing and Services.
		CO3	To give insights into factors that influence process choice. In impact fundamental control in the control in t
		CO1	To impart fundamental concepts in Job Design and Work Measurement.
315 OPE	Project Management III	CO2	To provide the students with a holistic, integrative view of Project Management.
- 2000	r-reject management in	CO3	To highlight the role of projects in modern day business organizations.
		001	To sensitize the students to complexities of project management.
305 HR	Labour & Social Security Laws 81		To make the students understand rationale behind labour laws
315,01		CO2	To equip students with important provisions of various labour laws
		C03	To give students insight into the implementation of labour laws.
306HR	Human Resource Accounting & Compensation Management III	CO1	To orient the students with the concepts related to human resource accounting & compensation
305HK		200	management.
		CO2	To facilitate learning related to human resource accounting & compensation management for employees.
307 HR	Employee Health, Safety III	CO1	To learn the basic concepts of safety management
370,000		CO2	To study the various provisions of employee health and safety.
1 30000	Quality Management System III	cos	To create an awareness of fundamental principles, significance and implementation of quality
313HR		001	management
2000000		CO2	To use new concepts of TQM in the process of continuous improvement and learning
315 HR	Lab in Job Design & Analysis III	COI	To give hands of experience to the students of designing jobs at various levels
317HR	Lab in Labor Laws - I	CO1	To give students insight into the implementation of labour laws
150000	CHO III COOCI LEWS - 1	002	To acquaint students with calculation of due/ compensations/ contributions etc.
		CO1	Apply general ethical principles to particular cases or practices in business.
1 1		COZ	Think independently and rationally about contemporary moral problems.
401	401 Managing for Sustainability SEM IV)	CO3	Recognize the complexity of problems in practical ethics.
		CO4	Demonstrate how general concepts of governance apply in a given situation or given circumstances.
402	Dissertation SEM IV	CO1	To offer the opportunity for the young students to acquire on job the skills, knowledge, attitudes, an perceptions along with the experience needed to constitute a professional identity.
		CO2:	To provide means to immerse students in actual supervised professional experiences
		CO3	To gain deeper understanding in specific areas,
		CO1	To emphasize the significance of services marketing in the global economy.
403 MKT	Services Marketing	COZ	To make the students understand the decree of the global economy.
	1000 A 500 A	CO3	To make the students understand the desper aspects of successful services marketing.
		001	To provide insights to the challenges and opportunities in services marketing.
51 (5)	1	444	To provide foundations in components of sales and distribution management.

-

404 MKT	Sales & Distribution Management	C02	To introduce verious facets of the job of a sales manager.
	sales a distribution management	7355	To focus on decision making aspects and implementation of decisions in sales and distribution
		CO3	management.
244033000	- // ALEGOWINGCOM CONS	001	To provide insights into all functional areas of retailing.
405 MKT	Retail Marketing	CO2	To give an account of essential principles of retailing.
		CO3	To give a perspective of the Indian retailing scenario.
408 MKT	950-00-99177550-07-02-00-	CO1	To make the students understand the concept and techniques of international marketing.
4UB MKI	International Marketing	CO2	To train the students to develop plans and marketing strategies for entering into international markets and managing overseas operations.
410 MKT	Marketing Strategy	CO1	To introduce a systematic understanding of marketing strategy and decision making in dynamic marketing environment.
	marketing strategy	CO2	To understand and apply the STP of marketing (segmentation, targeting, positioning).
		CO3	To understand and appreciate the concept of marketing strategy formulation and implementation.
412MKT	Marketing of High Technology Products	CO1	To provide students with the concepts and tools necessary to effectively market a high technology product.
		C02	To help the students learn the marketing mix aspect of marketing high technology products.
		CO1	To equip young managers with the knowledge of retail banking, corporate banking and investment banking practices in India.
415 MKT	Marketing of Financial Services	COZ	To familiarize the students to the requisite regulatory compliances in Wealth Management industry.
		CO3	To make the student understand the Risk-Return principle and its practical use in marketing of financial services.
		CO1	To understand the basic concepts in various Indirect Tax Acts.
403 FIN	Indirect Taxation	CO2	To understand procedural part of Indirect Taxes
		CO3	To acquaint with online filling of various Forms & Returns.
		CO1	To make students familiar with the operations in foreign exchange markets.
404FIN	International Finance	CO2	To sensitize students with complexities of managing finance of multinational firm.
	1 (2000 (10 - 112 mm))	CO3	To highlight the importance of the regulatory framework within which international financial transactions can take place, with special reference to India.
2000/1900	02480 TAN 2048 BARBAR PROPERTY (1985)	CO1	To understand what is risk and the basic concepts of modeling its application for measuring
407 FIN:	Financial Risk Management		and managing financial risks
-		CO2	To measure volatility in market prices, highlight Risk Management issues in investments.
400 000	11_17G1078148000000000000000000000000000000000	CO1	To get acquainted with the changed role of Banking post 1991 Reforms.
409 FIN	Banking Operations – II	CO2	To know the lending and borrowing rates along with the various mandatory reserves.
		CO3	To know the procedural compliances by bank's functionality.
	NEXT EXTREMED A 1970	CO1	To understand the concept of Wealth Management.
410 FIN	Wealth and Portfolio Management	CO2	To understand the concept of Portfolio Management.
_		CO3	To understand various tools and methods of evaluating the portfolio.
		CO1	To analyze the fixed income securities markets and its implications for investments.
411 FIN	Fixed Income Securities & Technical Analysis	CO2	To explain the market characteristics, instruments, selling techniques, pricing and valuation issues with money market instruments.
_		CO3	To explain the specific features of the Indian Fixed Income Securities Markets.
103 006	Operations Strutems and Receasesh IV	CO1	To emphasize the key role of operations in bringing about the growth and profitability of organizations.

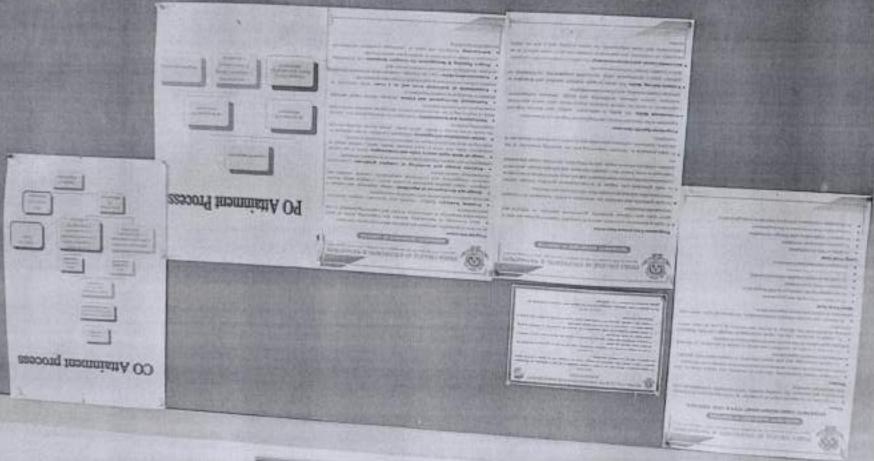

MBA Sem IV(2019 Pattern)

400.00	obelesions macella and measurers	CO2	To Impart ideas, concepts and principles in operations strategy.
		CO3	To understand use of quantitative tools in solving typical Operations Domain Problems
	STOTE SEC. 1980	CO1	To give various perspectives on Quality and various contributors to Quality.
404 OP	Total Quality Management IV	CO2	To provide an in-depth understanding of the various QC tools.
		003	To introduce the frameworks of Global Quality Awards:
		CO1	To introduce various management system standards.
405 OPE	Quality Management Standards IV	CO2	To explain the implementation and role of MR for IMS.
10/25-37-57		C03	To help the students understand the implementation of IMS through cases in services and manufacturing
		CO1	To bring out the relevance and basics of World Class Manufacturing.
406 OPE	World Class Manufacturing IV	CO2	To highlight the current state of Indian Manufacturing
		CO3	To provide a road map for World Class Manufacturing
		CO1	To understand how a business works and how information systems fit into business operations.
408 OPE	Enterprise Resource Planning IV	CO2	To understand the cross functional integration aspects of a business.
	The state of the s	CO3	To understand better managerial decision making through real time data integration and sharing.
		CO4	To understand the host of underlying technological roots of ERP.
		CO1	To provide the concepts of Lean Manufacturing.
413 OPE	Lean Manufacturing IV	CO2	To give a hands on - How To - series of steps in Lean Manufacturing Implementation.
		CO3	To highlight the role of company culture in transformation to Lean.
		CO1	Give students insight into the IR scenario in India
403 HR	Employment Relations IV	CO2	Make students understand important laws governing IR
		CO3	Create understanding about role of Govt., society and trade union in III.
	THE CONTRACTOR CONTRACTOR OF THE CONTRACTOR OF T	CO1	To make students understand HR implications of organizational strategies
404 HR	Strategic Human Resource Management IV	CO2	Understand the various terms used to define strategy & its process
		CO3	Understand HR strategies in Indian & global perspective
		CO1	To develop an understanding of the nature, functioning and design of organization
405 HR	Organizational Design & Development IV	CO2	Be able to understand the theory and practice relating to the processes of organization development and change
		CO3	Develop insight and competence in diagnostic and intervention processes and skills for initiating an facilitating organizational processes and change in organizations
		CO1	To appraise students with reward management system practiced in organizations
107 HR	Employee Reward Management IV	CO2	To make students understand the process of setting reward management system
		CO3	To give students exposure to the reward management practices followed various organizations
OHR	LAB in CSR IV	001	To help students understand & design CSR initiatives
14 HR	Emerging Trends in HR IV	CO1	To expose students to organizations to know amerging trends in HR.

INDIRA COLLEGE OF ENGINEERING AND MANAGEMENT Approved By AICTE New Delhi, DTE (MS) and Affiliated to Pune University

ACADEMIC YEAR 2021-22

COURSE OUTCOMES

Course Pattern:

	-10		SE(MECHANICA	L)(2019)
YEAR	COURSE	COURSE NAME	COURSE OUTCOME NO.	COURSE OUTCOMES
	202041 Solid M		202041.1	DEFINE various types of stresses and strain developed on determinate and indeterminate
			202041.2	DRAW Shear force and bending moment diagram for various types of transverse loading and
			202041.3	COMPUTE the slope & deflection, bending stresses and shear stresses on a beam
		Solid Mechanics	202041.4	CALCULATE torsional shear stress in shaft and buckling on the column
			202041.5	APPLY the concept of principal stresses and theories of failure to determine stresses on a 2-D
			202041.6	UTILIZE the concepts of SFD & BMD, torsion and principal stresses to solve combined loading application based problems
		Solid Modeling and Drafting	202042.1	UNDERSTAND basic concepts of CAD system, need and scope in Product Lifecyc Management UTILIZE knowledge of curves and surfacing features and methods to create
			202042.2	associate ralid
	202042		202042.3	CONSTRUCT solid models, assemblies using various modeling techniques & PERFORM
	202042		202042.4	APPLY geometric transformations to simple 2D geometries
			202042.5	USE CAD model data for various CAD based engineering applications viz.
			202042.6	USE PMI & MBD approach for communication
			202043.1	DESCRIBE the basics of thermodynamics with heat and work interactions.
			202043.2	APPLY laws of thermodynamics to steady flow and non-flow processes.
		e. ov 78 av	202043.3	APPLY entropy, available and non available energy for an Open and Closed Syste
	202043	Engineering Thermodynamics	202043.4	DETERMINE the properties of steam and their effect on performance of vapour
			202043.5	ANALYSE the fuel combustion process and products of combustion.
E (SEM-			202043.6	SELECT various Instrumentations required for safe and efficient operation of

III, LEROVI-IJ

		202044.1	COMPARE crystal structures and ASSESS different lattice parameters.
		202044.2	CORRELATE crystal structures and imperfections in crystals with mechanical
		202044.3	DIFFERENTIATE and DETERMINE mechanical properties using destructive and non
	Engineering Materials and	202044.3	destructive testing of materials
202044	Metallurgy	202044.4	IDENTIFY & ESTIMATE different parameters of the system viz., phases, variables,
	(202044.4	component, grains, grain boundary, and degree of freedom. etc.
		202044.5	ANALYSE effect of alloying element & heat treatment on properties of ferrous &
		202044.6	SELECT appropriate materials for various applications.
		203156.1	APPLY programming concepts to UNDERSTAND role of Microprocessor and
		202156.2	DEVELOP interfacing of different types of sensors and other hardware devices wit
		203156.2	Atmega328 based Arduino Board
203156	ectrical and Electronics Engineerin	203156.3	UNDERSTAND the operation of DC motor, its speed control methods and braking
		203156.4	DISTINGUISH between types of three phase induction motor and its characteristic
		203156.5	EXPLAIN about emerging technology of Electric Vehicle (EV) and its modular
		203156.6	CHOOSE energy storage devices and electrical drives for EVs
		202045.1	SELECT appropriate IS and ASME standards for drawing
	Geometric Dimensioning and Tolerancing Lab	202045.2	READ & ANALYSE variety of industrial drawings
202045		202045.3	APPLY geometric and dimensional tolerance, surface finish symbols in drawing
		202045.4	EVALUATE dimensional tolerance based on type of fit, etc.
		202045.5	SELECT an appropriate manufacturing process using DFM, DFA, etc.
		202046.1	To know about various aspects of soft skills and learn ways to develop personality
niwo.come-s	Audit Course - III Developing soft	202046.2	Understand the importance and type of communication in personal and
202046	skills and personality	202046.3	To provide insight in to much needed technical and non-technical qualities in
		202046.4	Learn about Leadership, team building, decision makin gand stress management
		207002.1	SOLVE higher order linear differential equations and its applications to model and
		207002.2	APPLY Integral transform techniques such as Laplace transform and Fourier
207002	Engineering Mathematics - III	207002.3	APPLY Statistical methods like correlation, regression in analyzing and interpreting
. 		207002.4	PERFORM Vector differentiation & integration, analyze the vector fields and APP
		207002.5	SOLVE Partial differential equations such as wave equation, one and two
		202047.1	APPLY kinematic analysis to simple mechanisms
		202047.2	ANALYZE velocity and acceleration in mechanisms by vector and graphical metho
202047	Kinematics of Machinery	202047.3	SYNTHESIZE a four bar mechanism with analytical and graphical methods
		202047.4	APPLY fundamentals of gear theory as a prerequisite for gear design
		202047.5	CONSTRUCT cam profile for given follower motion
		202048.1	DETERMINE COP of refrigeration system and ANALYZE psychrometric processes.
		202048.2	DISCUSS basics of engine terminology, air standard, fuel air and actual cycles.
		202048.3	IDENTIFY factors affecting the combustion performance of SI and CI engines.

	202048	Applied Thermodynamics	202048.4	DETERMINE performance parameters of IC Engines and emission control.
	202040		202048.5	EXPLAIN working of various IC Engine systems and use of alternative fuels
	1		202040.5	CALCULATE performance of single and multi stage reciprocating compressors and
	1		202048.6	DISCUSS rotary positive displacement compressors
	-		202049.1	DETERMINE various properties of fluid
	1 1	Tr.	202049.2	APPLY the laws of fluid statics and concepts of buoyancy
	1 1		202049.3	IDENTIFY types of fluid flow and terms associated in fluid kinematics
	1	Fluid Machaniss	202049.4	A DRIV esinciples of fluid dynamics to laminar flow
	202049	Fluid Mechanics	202049.5	ESTIMATE friction and minor losses in internal flows and DETERMINE boundary laver formation over an external surface
			202049.6	CONSTRUCT mathematical correlation considering dimensionless parameters, als ABLE to predict the performance of prototype using model laws
SE (SEM- IV,TERM-II)		Manufacturing Processes	202050.1	SELECT appropriate moulding, core making and melting practice and estimate
			202050.2	LIMPERSTAND mechanism of metal forming techniques and CALCULATE load
	1 1			DEMONSTRATE press working operations and APPLY the basic principles to
	202050		202050.3	DESIGN dies and tools for forming and shearing operations
			202050.4	CLASSIEV and EXPLAIN different welding processes and EVALUATE welding
			202050.5	DIFFERENTIATE thermonlastics and thermosetting and EXPLAIN polymer
	1 1		202050.6	UNDERSTAND the principle of manufacturing of fibre-reinforce composites and
			202051.1	PERFORM welding using TIG/ MIG/ Resistance/Gas welding technique
	1 1		202051.2	MAKE Fibre-reinforced Composites by hand lay-up process or spray lay-up
	1 1	-	202051.3	DEBEORM cylindrical/surface grinding operation and CALCULATE its machining
	202051	Machine Shop	202051.4	DETERMINE number of indexing movements required and acquire skills to PRODUCE a spur gear on a horizontal milling machine
	1 1		202051.5	PREPARE industry visit report
	1 1	-	202051.6	UNIDERSTAND procedure of plastic processing
			202052.1	IDENTIFY the real-world problem (possibly of interdisciplinary nature) through a rigorous literature survey and formulate / set relevant aims and objectives.
		- H	202052.2	ANALYZE the results and arrive at valid conclusions
		H	202032.2	PROPOSE a suitable solution based on the fundamentals of mechanical
	202052	Project Based Learning - II	202052.3	angineering by possibly integration of previously acquired knowledge.
	202032	**************************************	202052.4	CONTRIBUTE to society through proposed solutions by strictly following
			202052.4	USE of technology in proposed work and demonstrate learning in oral and write
			202052,5	DEVELOP ability to work as an individual and as a team member.

	202052	Audit Course - IV Human	202053.1	Understand concept of human act and interact
	202053	Behaviour	202053.2	Understand types of human beheviour
			TE(MECHAN	ICAL)(2019)
YEAR	COURSE	COURSE NAME		COURSE OUTCOMES
	-		302041.1	SOLVE system of equations using direct and iterative numerical methods
	1 1		302041.2	ESTIMATE solutions for differential equations using numerical techniques
	302041	Numerical and Statistical	302041.3	DEVELOP solution for engineering applications with numerical integration.
		Methods	302041.4	DESIGN and CREATE a model using a curve fitting and regression analysis.
		300 (000 (000 (000 (000 (000 (000 (000	302041.5	APPLY statistical Technique for quantitative data analysis
	1 1		302041.6	DEMONSTRATE the data, using the concepts of probability and linear algebra
			302042.1	ANALYZE & APPLY the modes of heat transfer equations for one dimensional
	1 1		302042.2	DESIGN a thermal system considering fins, thermal insulation and & Transient
	1 1		302042.3	EVALUATE the heat transfer rate in natural and forced convection & validate with
	302042	Heat and Mass Transfer	302042.4	INTERPRET heat transfer by radiation between objects with simple geometries, fo
	302042		1722222	ABILITY to analyze the rate of mass transfer using Fick's Law of Diffusion and
			302042.5	understands mass diffusion in different coordinate systems.
			302042.6	DESIGN & ANALYSIS of heat transfer equipments and investigation of its
			302043.1	DESIGN AND ANALYZE the cotter and knuckle Joints, levers and components
	V 1		302043.2	DESIGN shafts, keys and couplings under static loading conditions.
	1		302043.3	ANALYZE different stresses in power screws and APPLY those in the procedure to
	302043	Design of Machine Elements	302043.4	EVALUATE dimensions of machine components under fluctuating loads.
			302043.5	EVALUATE & INTERPRET the stress developed on the different type of welded and
		-	302043.6	APPLY the design and development procedure for different types of springs.
			302044.1	DEFINE key elements of mechatronics, principle of sensor and its characteristics.
	1 1		302044.2	UTILIZE concept of signal processing and MAKE use of interfacing systems such as
	100.700.000411	2600/2000/00000000	302044.3	DETERMINE the transfer function by using block diagram reduction technique.
	302044	Mechatronics	302044.4	EVALUATE Poles and Zero, frequency domain parameter for mathematical
TE (SEM-	1 1		302044.5	APPLY the concept of different controller modes to an industrial application.
V,TERM-I)			302044.6	DEVELOP the ladder programming for industrial application
			302045.1	ANALYSE the effect of friction in metal forming deep drawing and IDENTIFICATION of surface defects and their remedies in deep drawing operations
		Advanced Forming & Joining	302045.2	ASSESS the parameters for special forming operation and SELECT appropriate special forming operation for particular applications
	302045	Processes	302045.3	ANALYSE the effect of HAZ on microstructure and mechanical properties of
	1.00%.00%.00%.00%	Fiocesses	302045.4	CLASSIFY various solid state welding process and SELECT suitable welding
			302045.5	CLASSIFY various advanced welding process and SELECT suitable welding

1	Γ 1	302045.6	INTERPRET the principles of sustainable manufacturing and its role in
		302046.1	DEVELOP a component using conventional machines, CNC machines and Additive
		302046.2	ANALYZE cutting tool parameters for machining given job.
302046	Digital Manufacturing Laboratory	302046.3	DEMONSTRATE simulation of manufacturing process using Digital Manufacturing
302040	Digital Manufacturing Louvision 7	302046.4	SELECT and DESIGN jigs and Fixtures for a given component.
		302046.5	DEMONESTRATE different parameters for CNC retrofitting and reconditioning.
		302047.1	APPLY& DEMONSTRATE procedure of assembly & disassembly of various
		302047.2	DESIGN & DEVELOP a working/model of machine parts or any new product.
302047	Skill Development	302047.3	EVALUATE fault with diagnosis on the machines, machine tools and home
302047	July Development	302047.4	IDENTIFY & DEMONSTRATE the various activities performed in an industry such as maintenance, design of components, material selection.
302048	Audit Course V Entrepreneurship and IP strategy		
		302049.1	DEMONSTRATE fundamentals of artificial intelligence and machine learning
		302049.2	APPLY feature extraction and selection techniques
	Artificial Intelligence & Machine	302049.3	APPLY machine learning algorithms for classification and regression problems.
302049	Learning	302049.4	DEVISE AND DEVELOP a machine learning model using various steps.
		302049.5	EXPLAIN concepts of reinforced and deep learning.
	I –	302049.6	SIMULATE machine learning model in mechanical engineering problems.
		302050.1	DEFINE the use of CAE tools and DESCRIBE the significance of shape functions in
1		302051.2	APPLY the various meshing techniques for better evaluation of approximate
		302052.3	APPLY material properties and boundary condition to SOLVE 1-D and 2-D element stiffness matrices to obtain nodal or elemental solution
302050	Computer Aided Engineering	302053.4	ANALYZE and APPLY various numerical methods for different types of analysis.
		302054.5	EVALUATE and SOLVE non-linear and dynamic analysis problems by analyzing the results obtained from analytical and computational method.
		302055.6	GENERATE the results in the form of contour plot by the USE of CAE tools.
		302051.1	APPLY the principle of Spur & Helical gear design for industrial application and PREPARE a manufacturing drawing with the concepts of GD&T.
1		302051.2	EXPLAIN and DESIGN Bevel & Worm gear considering design parameters as per
302051	Design of Transmission Systems	302051.3	SELECT&DESIGN Rolling and Sliding Contact Bearings from manufacturer's catalogue for a typical application considering suitable design parameters.
302031	Codition transmand systems	302051.4	DEFINE and DESIGN various types of Clutches, Brakes, used in automobile
		302051.5	APPLY various concept to DESIGN Machine Tool Gear box, for different

ELABORATE various modes of operation, degree of hybridization and allied terms 302051.6 associated with hybrid electric vehicles. DEFINE & COMPARE composites with traditional materials 302052.1 IDENTIFY & ESTIMATE different parameters of the Polymer Matrix Composite 302052.2 CATEGORISE and APPLY Metal Matrix Process from possessions landscape. 302052.3 Composite Materials DETERMINE volume/weight fraction and strength of Composites. 302052 302052.4 SELECT appropriate testing and inspection method for composite materials. 302052.5 SELECT composites materials for various applications 302052.6 TE (SEM-EVALUATE causes of errors in Vernier calipers, micrometers by performing VI, TERM-II) experiments in standard metrological conditions, noting deviations at actual and 302053.1 by plotting cause and effect diagram, to reduce uncertainty in measurement. ANALYZE strain measurement parameters by taking modulus of elasticity in 302053.2 consideration to acknowledge its usage in failure detection and force variations. EXAMINE surface Textures, surface finish using equipment's like Talysurf and analyze surface finish requirements of metrological equipment's like gauges, jaws 302053.3 of vernier calipers, micrometers, magnifying glasses of height gauge and more, to Measurement Laboratory 302053 MEASURE the dimensional accuracy using Comparator and limit gauges and 302053.4 appraise their usage in actual measurement or comparison with standards set to PERFORM Testing of Flow rate, speed and temperature measurements and their effect on performance in machines and mechanisms like hydraulic or pneumatic 302053.5 trainers, lathe machine etc. to increase repeatability and reproducibility. COMPILE the information of opportunities of entrepreneurships/business in 302053.6 various sectors of metrology like calibrations, testing, coordinate and laser DEFINE working principle of components used in hydraulic and pneumatic systems 302054.1 IDENTIFY & EXPLAIN various applications of hydraulic and pneumatic systems. 302054.2 SELECT an appropriate component required for hydraulic and pneumatic systems 302054.3 using manufactures' catalogues. Fluid Power & Control Laboratory 302054 SIMULATE & ANALYSE various hydraulic and pneumatic systems for 302054.4 DESIGN a hydraulic and pneumatic system for the industrial applications 302054.5 DESIGN & DEMONESTRATE various IoT, PLC based controlling system using 302054.6 DEMONSTRATE professional competence through industry internship. 302055.1 APPLY knowledge gained through internships to complete academic activities in a 302055.2 CHOOSE appropriate technology and tools to solve given problem. 302055.3 Internship/Mini project DEMONSTRATE abilities of a responsible professional and use ethical practices in 302055 302055.4 DEVELOP network and social circle, and DEVELOPING relationships with industry 302055.5 ANALYZE various career opportunities and DECIDE career goals. 302055.6 302056 Audit Course VI

			BE(MECHANI	ICAL)(2015)
YEAR	COURSE	COURSE NAME		COURSE OUTCOMES
	CODE		402041.1	Understand working principle of components used in hydraulic & pneumatic systems.
	402041		402041.2	Identify various applications of hydraulic & pneumatic systems.
			402041.3	Selection of appropriate components required for hydraulic and pneumatic systems.
		Hydraulics and Pneumatics	402041.4	Analyse hydraulic and pneumatic systems for industrial/mobile applications.
			402041.5	Design a system according to the requirements.
			402041.6	Develop and apply knowledge to various applications.
	402042		402042.1	Apply homogeneous transformation matrix for geometrical transformations of 2D CAD entities for basic geometric transformations
			402042.2	Use analytical and synthetic curves and surfaces in part modeling
				Do real times analysis of simple mechanical elements like beams, trusses, etc. a
		CAD CAM Automation	402042.3	comment on safety of engineering components using analysis software. Generate CNC program for Furning / Willing and generate tool path using CAM
			402042.4	A 1.1.1.1
			402042.5	Demonstrate understanding of various rapid manufacturing techniques and develop
			402042.6	Understand the robot systems and their applications in manufacturing industrie
	-	Dynamics of Machinery	402043.1	Apply balancing technique for static and dynamic balancing of multi cylinder inli
	402043		402043.2	Estimate natural frequency for single DOF undamped & damped free vibratory
			402043.3	Determine response to forced vibrations due to harmonic excitation, base excitation and excitation due to unbalance forces.
			402043.4	Estimate natural frequencies, mode shapes for 2 DOF undamped free longitudi and torsional vibratory systems.
		—	402043.5	Describe vibration measuring instruments for industrial / real life applications
		<u> </u>	402043.5	Explain noise, its measurement & noise reduction techniques for industry and
			402045.0 402044 A.1	Understand the different techniques used to solve mechanical engineering
402044 A			402044 A.2	Derive and use 1-D and 2-D element stiffness matrices and load vectors from various methods
			402044 A.3	Apply mechanics of materials and machine design topics to provide preliminary
	402044 A	Elective-I Finite Element Analysis	402044 A.4	Explain the inner workings of a finite element code for linear stress, displacement temperature and modal analysis.
	110000000000000000000000000000000000000	(A. S.	402044 A.5	Use commercial finite element analysis software to solve complex problems in solid

BE(SEM- VII,TERM-I)		-	402044 A.6	Interpret the results of finite element analyses and make an assessment of the results in terms
				of modeling (physics assumptions) errors, discretization (mesh density and
			402044B.1	Analyse and model fluid flow and heat transfer problems.
	1 1	and the same of	4020448.2	Generate high quality grids and interpret the correctness of numerical results with
	402044 B	Elective-I Computational Fluid	402044B.3	Conceptualize the programming skills.
	1965	Dynamics	402044B.4	Use A CFD tool effictively for Practical problems and research.
			402044B.5	Interpretation of Software solution to physics involved in Fluid flow & Heat
			402044 C.1	Determine the performance parameters of trans-critical & ejector refrigeration
	1 1		402044 C.2	Estimate thermal performance of compressor, evaporator, condenser and cooling
	1 1		402044 C.3	Describe refrigerant piping design, capacity & safety controls and balancing of
	1 1	Elective-I Heating, Ventilation,	402044 C.4	Explain importance of indoor and outdoor design conditions, IAQ, ventilation and
	402044 C	Air Conditioning and Refrigeration Engineering	402044 C.5	ventilation and air distribution system. • Estimate heat transmission through building walls using CLTD and decrement factor &time lag methods with energy-efficient and cost-effective measures for building
			402044 C.6	Explain working of types of desiccant, evaporative, thermal storage, radiant cooling, clean room and heat pump air-conditioning systems.
	402045 A	Elective - II Automobile Engineering Elective - II Operation Research Elective - II Energy Audit and	402045 A.1	To compare and select the proper automotive system for the vehicle.
			402045 A.2	To analyse the performance of the vehicle.
			402045 A.3	To diagnose the faults of automobile vehicles.
			402045 A.4	To apply the knowledge of EVs, HEVs and solar vehicles
	_		402045 B.1	Apply LPP and Decision Theory to solve the problems
			402045 B.2	Apply the concept of transportation models to optimize available resources.
	402045 B		402045 B.3	Decide optimal strategies in conflicting situations.Implement the project
			402045 B.4	.Minimize the process time Optimize multi stage decision making problems
			402045 C.1	Compare energy scenario of India and World.
			402045 C.2	Carry out Energy Audit of the Residence / Institute/ Organization
	4		402045 C.3	Evaluate the project using financial techniques
	402045 C	Management	402045 C.4	Identify and evaluate energy conservation opportunities in Thermal Utilities.
	10000000000000000000000000000000000000	Management	402045 C.5	Identify and evaluate energy conservation opportunities in Electrical Utilities.
		_	402045 C.6	Identify the feasibility of Cogeneration and WHRUse a CFD tool effectively for
	-		402046.1	Find out the gap between existing mechanical systems and develop new creative
	402050	Project - I	402046.2	Learn about the literature review
	402050	Project-1	402046.3	Get the experience to handle various tools, tackles and machines.
			402047.1	Describe the power generation scenario, the layout components of thermal pow plant and analyze the improved Rankin cycle, Cogeneration cycle

(

C

Analyze the steam condensers, recognize the an environmental impacts of 402047.2 thermal power plant and method to control the same Recognize the layout, component details of hydroelectric power plant and nuclear **Energy Engineering** 402047 402047.3 Realize the details of diesel power plant, gas power plant and analyze gas turbine 402047.4 Emphasize the fundaments of non-conventional power plants 402047.5 Describe the different power plant electrical instruments and basic principles of understand the difference between component level design and system level 402047.6 402048.1 Design various mechanical systems like pressure vessels, machine tool gear boxes, 402048.2 material handling systems, etc. for the specifications stated/formulated 402048 Mechanical System Design Learn optimum design principles and apply it to mechanical components 402048.3 Handle system level projects from concept to product. 402048.4 The course will enable the students to know the importance of Tribology in 402049 A.1 The course will enable the students to know the basic concepts of Friction, Wear, 402049 A.2 Lubrications and their measurements
This course will help students to know the performance or universit types or Elective-III Tribology 402049 A 402049 A.3 This course will help students to apply the principles of surface engineering for 402049 A.4 different applications of tribology. Apply the Industrial Engineering concept 402049 B.1 Understand, analyze and implement different concepts involved in method 402049 B.2 Design and Develop different aspects of work system and facilities 402049 B | Elective-III Industrial Engineering 402049 B.3 Understand and Apply Industrial safety standards, financial management 402049 B.4 Undertake project work based on modeling & simulation area. 402049 B.5 Identify different type of robot configuration with relevant terminology. 402049 C.1 BE (SEM-Design robot with desired motion with suitable trajectory planning. 402049 C.2 VIII, TERM-II) Select suitable sensors, actuators and drives for robotic systems. 402049 C.3 Elective-III Robotics 402049 C Understand kinematics in robotic systems 402049 C.4 Select appropriate robot programming for given application 402049 C.5 Understand need of IoT, machine learning, simulation in robotics. 402049 C.5 Classify and analyze special forming processes 402050A.1 Analyze and identify applicability of advanced joining processes 402050A.2 Understand and analyze the basic mechanisms of hybrid non-conventional 402050A.3 Elective-IV Advanced Select appropriate micro and nano fabrication techniques for engineering 402050A.4 402050 A Understand and apply various additive manufacturing technology for product Manufacturing Processes 402050A.5 Understand material characterization techniques to analyze effects of chemical 402050A.6 composition, composition variation, crystal structure, etc. Design of solar food drier for domestic purpose referring existing system 402050 B.1

- 1	1	Elective-IV Solar and Wind	402050 B.2	Design of parabolic dish solar cooker for domestic purpose referring existing
	402050 B	Energy	402050 B.3	Design of solar photovoltaic system for domestic purpose referring existing
		Litergy	402050 B.4	Design miniature wind mill for domestic purpose referring existing system
			402050 C.1	Understand essential factors for product design
			402050 C.2	Design product as per customer needs and satisfaction
		Elective-IV Product Design and	402050 C.3	Understand Processes and concepts during product development
	402050 C	Development	402050 C.4	Understand methods and processes of Forward and Reverse engineering
1		Development	402050 C.5	Carry various design processes as DFA, DFMEA, design for safety
- 1			402050 C.6	Understand the product life cycle and product data management
- 1			402051.1	Find out the gap between existing mechanical systems and develop new creative
	402051	Project-II	402051.2	Learn about the literature review
	402051	Projectii	402051.3	Get the experience to handle various tools, tackles and machines.
			ME(MECH	
YEAR	COURSE	COURSE NAME		COURSE OUTCOMES
	CODE		507101.1	apply and solve Linear Algebraic Equations
	- 1	Advanced Mathematics and Numerical Methods	507101.2	understand Linear Regression Analysis methods
			507101.3	Expalin methods of Differentiation & Integration
	507101		507101.4	solve Eigen Values & Eigen Vectors of Matrices
			507101.5	solve Ordinary differential equations
			507101.6	apply and solve Ordinary differential equations
			502102.1	Explain the Equation of state and properties of pure substance
			502102.2	Apply the laws of thermodynamics to real life problems
			502102.3	Estimate Exergy Analysis of Thermal Systems
	502102	Advanced Thermodynamics and	502102.4	Derive and explain Thermodynamic Property Relations
		Combustion Technology	302102.4	Describe chemical reaction, phase and chemical equilibrium, gas mixtures concep
			502102.5	to analyse the combustion technology.
		I -	502102.6	Explain Thermodynamics of Biological systems
			502103.1	Describe the governing equations integral and differencial relations
		I ⊢	502103.2	explain Navier-Stokes Equations, exact solutions and Analysis of numerical
		5007 6 20 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0	502103.3	Describe Elementary Plane-Flow Solutions, Role of viscosity in rotational and irrotational flows, Concept of lift and drag.
FIRST YEAR	502103	Advanced Fluid Mechanics	502103.4	Explain Boundary layer equations, Effect of pressure gradient
EM-I,TERM-I)		I -	502103.4	Understand turbulent flow and explain Various Turbulent Models.
(SEIVI-I, I EKIVI-I)				Expain one dimenssional compressible flow,normal shock relations and oblick
			502103.6	levasia one dimenssional compressible flow florifier shock relations and oblice

1	502104		502104.2	farmulate Research Problem and understand the Concept & need of research
			502104.3	Apply Mathematical Modelling and prediction of performance
- 1		Research Methodology	502104.4	Explain basic instrumentation used in research.
- 1			502104.5	understand and apply statitics in research.
- 1			502104.6	write research report and publish research work.
1			502105A.1	Explain project and understand planning budgeting implementing
		Project Management	502105A.2	Describe Implementation and performance monitoring. Implementation plan for
		Project Management	502105A.3	Explain Planning Budget, Procurement Procedures, Construction, Measurement
			5021058.1	Explain Operating systems models, key decisions, Planning and controlling
- 1		_	5021058.2	Describe Technology and knowledge management, Quality Management
		Operation Management	502105B.3	Understand Operations - Challenges, Opportunities, Excellence, risk managemen and sustainability through case studies
- 1			502105C.1	Identify Pollution and Environmental Ethics
		Environmental and Pollution	502105C.2	Understand Nuclear hazards Environmental impact and economic aspects
		control	502105C.3	Realize Emission standards and regulations for Automobiles.
			502107.1	Understand modes of heat transfer and laws of heat transfer and apply it to real
	502106	Advanced Heat Transfer	502107.2	solve the transient heat conduction problems
			502107.3	solve the problems related to External Forced Convection
			502107.4	Apply the Principle of Fluid flow and Convective heat transfer
			502107.5	solve the problems related to natural convection
			502107.6	Apply the correlations of boiling and condensation to solve real life problems
			502107.7	Solve the problems of thermal radiation.
-			502108.1	understand HVAC basics termonology
		Air Conditioning Technology	502108.2	understand and apply Psychrometry
			502108.3	Realize and analysis importance of thermal comfort.
- 1	502108		502108.4	calculate heating and cooling load
			502108.5	design duct system
		H	502108.6	design air conditioning system
			502109.1	explain Instrument types and performance characteristics
FIRST YEAR			502109.2	evaluate Measurement Uncertainty
SEM-II,TERM-	000000	A Controls	502109.3	Measure field quantities
11)	502109	Measurements and Controls	502109.4	measure derived quantities
		-	502109.5	understand basics of controller
			502110A.1	Analyse the Axial flow Compressors, Centrifugal flow compressors
11		Turbomachinery	502110A.2	analyse Axial flow Turbines and Radial flow Turbines
1		100000000000000000000000000000000000000	5021108.2	Understand basics of Compressible flow
	52675000000	Gas Turbine	502110B.1 502110B.2	analysis of ideal and real engine
	502110	ACCRESSORIE OF THE PROPERTY OF	5021100.2	Marie

1	8 I		502110C.1	analyse conservation opportunities
		Selection of Fans, Pumps and	502110C.2	evaluate performance
		blowers	502110C.3	Select fans, pumps and blowers
ŀ			502112.1	To use multiple thinking strategies to examine real-world issues and explore creative
	Town Votes		502112.2	To acquire, articulate, create and convey intended meaning using verbal and non-verbal
	502112	Seminar-1	502112.3	To learn and integrate, through independent learning in sciences and technologies, with disciplinary specialization and the ability to integrate information across
YEAR	COURSE	COURSE NAME		COURSE OUTCOMES
	CODE		602113.1	understand application of CFD and Basics governing equation
	602113		602113.2	understand Discretization and Essentials of Numerical Methods
		Computational Fluid Dynamics	602113.3	use Curvilinear Coordinates and Numerical Grid Generation
			602113.4	Compute Heat-Transfer on a Cartesian-Geometry
			602113.5	Solve Eulers and Navier-Stokes Equations
- 1			602113.6	explain Turbulence Modeling
			602114.1	classify Heat Exchangers
	602114		602114.2	Solve to Determine Exchanger Effectiveness
SECOND YEAR		Design of Heat Transfer Equipments	602114.3	analyse Heat Exchanger Pressure Drop
SEM-III,TERM-			602114.4	understand Heat Transfer Characteristics
1)			602114.5	understand basics of cooling tower and furnaces
			602114.6	explain thermal devices
			602115A.1	understand solar cell
		Solar Energy	602115A.2	understand environmental impact of photovoltaic
		Waste Heat Recovery and	6021158.1	Understand Waste Heat Recovery
	602115	Cogeneration	6021158.2	understand Cogeneration
	-		602115C.1	understand Biomass potential and Use
		Biomass Technology	602115C.2	understand Environmental impact of biomass
			602117.1	Find out the gap between existing mechanical systems and develop new creative
SECOND YEAR			602117.2	Learn about the literature review
SEM-IV,TERM-	602117	Project	602117.3	Get the experience to handle various tools, tackles and machines.
11)	111111111111111111111111111111111111111		602117.4	inculcate research culture

COURSE OUTCOMES

			COURSE PATTE	
			SE(CI	VIL)
YEAR	COURSE CODE	COURSE NAME	COURSE OUTCOME NO.	COURSE OUTCOMES
			201001.1	Identify types of building and basic requirements of building components.
			201001.2	Make use of Architectural Principles and Building byelaws for building construction
	201001	Building Technology	201001.3	Plan effectively various types of Residential Building forms according to their utility, functions with reference to National Building Code.
		and Architectural Planning	201001.4	Plan effectively various types of Public Buildings according to their utility function with reference to National Building Code
			201001.5	Make use of Principles of Planning in Town Planning, Different Villages and Safet aspects.
			201001.6	Understand different services and safety aspects
		Mechanics of Structures	201002.1	Understand concept of stress-strain and determine different types of stress, strain in determinate, indeterminate homogeneous and composite structures.
			201002.2	Calculate shear force and bending moment in determinate beams for different loading conditions and illustrate shear force and bending moment diagram.
	201002		201002.3	Explain the concept of shear and bending stresses in beams and demonstrate
			201002.4	Use theory of torsion to determine the stresses in circular shaft and understand concept of Principal stresses and strains.
			201002.5	Analyze axially loaded and eccentrically loaded column.
			201002.6	Determine the slones and deflection of determinate beams and trusses.
			201003.1	Understand the use of Fluid Properties, concept of Fluid statics, basic equation Hydrostatics, measurement of fluid pressure, buoyancy & floatation and its application for solving practicalproblems.

			201003.2	Understand the concept of fluid kinematics with reference to Continuity equation and fluiddynamics with reference to Modified Bernoulli's equation and its application to practicalproblems of fluid flow
			201003.3	Understand the concept of Dimensional analysis using Buckingham's it theorem, Similarity &Model Laws and boundary layer theory and apply it for solving
	201003	Fluid Mechanics	201003.4	Understand the concept of laminar and turbulent flow and flow through pipes and its application to determine major and minor losses and analyze pipe network using Harry Cross method.
			201003.5	Understand the concept of open channel flow, uniform flow and depth-Energy relationships in open channel flow and make the use of Chezy's and Manning's formulae for uniform flowcomputation and design of most expressive channel section.
SE (SEM-III,TERM-I)			201003.6	Understand the concept of gradually varied flow in open channel and fluid flow aroundsubmerged objects, compute GVF profile and calculate drag and lift force on fully submergedbody.
	207001	Engineering Mathematics III	207001.1	Solve Higher order linear differential equations and its applications to modelling and analysing Civil engineering problems such as bending of beams, whirling of chafts and mass spring systems.
			207001.2	Solve System of linear equations using direct & iterative numerical techniques and developsolutions for ordinary differential equations using single step & multistep methods applied tohydraulics, geotechnics and structural systems
			207001.3	Apply Statistical methods like correlation, regression and probability theory in data analysis and oredictions in civil engineering.
			207001.4	Perform Vector differentiation &integration, analyze the vector fields and
			207001.5	Solve Partial differential equations such as wave equation, one and two dimensional heat flowequations.
			207009.1	Explain about the basic concepts of engineering geology, various rocks, and minerals both in laband on the fields and their inherent characteristics and their uses in civil engineering constructions.
			207009.2	Exploring the importance of mass wasting processes and various tectonic processes that hampers the design of civil engineering projects and its implications on environment and sustainability.

207009	Engineering Geology	207009.3	Recognize effect of plate tectonics, structural geology and their significance and utility in civilengineering activities.	
	cugueering ocoogy	207009.4	Incorporate the various methods of survey, to evaluate and interpret geological nature of the rocks present at the foundations of the dams, percolation tanks, tunnels and to infer site / alignment/level free from geological defects	
		Assess the Importance of geological nature of the site, pr 207009.5 Improve thesite conditions for dams, reservoirs, and tunn	Assess the Importance of geological nature of the site, precautions and treatments to improve the site conditions for dams, reservoirs, and tunnels.	
		207009.6	Explain geological hazards and importance of ground water and uses of commo buildingstones.	
· ·		201007.1	Describe functioning/working of different types of industries/sectors in Civil Engineering.	
	Audit Course I	201007,2	Describe drawings and documents required and used in different Civil Engineering works Understand the importance of Code of Ethics to be practiced by a Civil Engineer and also	
		201007.3	Understand the importance of Code of Ethics to be practiced by a Child Engineer understand the duties and responsibilities as a Civil Engineer	
		201007.4	Understand different health and safety practices on the site	
			I to the state of the state of the formation	
		201008.1	Identify and classify the soil based on the index properties and its formation process	
		201008.2	Explain permeability and seepage analysis of soil by construction of flow net	
	Geotechnical	201008.3	Illustrate the effect of compaction on soil and understand the basics of stress distribution.	
201008	Engineering	201008.4	Express shear strength of soil and its measurement under various drainage	
		201008.5	Evaluate the earth pressure due to backfill on retaining structures by using different theories.	
		201008.6	Analysis of stability of slopes for different types of soils.	
		201009.1	Define and Explain basics of plane surveying and differentiate the instruments use for it.	
		201009.2	Express proficiency in handling surveying equipment and analyse the surveying data from these equipment.	

	201009	Survey	201009.3	Describe different methods of surveying and find relative positions of points on the surface of earth.
			201009.4	Execute curve setting for civil engineering projects such as roads, railways etc.
			201009.5	Articulate advancements in surveying such as space based positioning systems.
			201009.6	Differentiate map and aerial photographs, also interpret aerial photographs.
			201010.1	Able to select the various ingredients of concrete and its suitable proportion to achieved desiredstrength.
			201010.2	Able to check the properties of concrete in fresh and hardened state.
SE (SEM-IV,TERM-II)	201010	Concrete Technology	201010.3	Get acquainted to concreting equipments, techniques and different types of special concrete.
SE (SEMINA), LEMMAN			201010.4	Able to predict deteriorations in concrete and get acquainted to various repairing methods and techniques
	201011	Structural Analysis	201011.1	Understand the basic concept of static and kinematic indeterminacy and analysis of indeterminate beams.
			201011.2	Analyze redundant trusses and able to perform approximate analysis of multi- story multi-bay frames.
			201011.3	Implement application of the slope deflection method to beams and portal frames
			201011.4	Analyze beams and portal frames using moment distribution method.
			201011.5	Determine response of beams and portal frames using structure approach o stiffness matrixmethod.
			201011.6	Apply the concepts of plastic analysis in the analysis of steel structures.
			201012.1	Describe project life cycle and the domains of Project Management.
	201012		201012.2	Explainnetworking methods and their applications in planning and management
			201012.3	Categorizethe materials as per their annual usage and IsoCalculateproduction rat of construction equipment
		Project Management	201012.4	Demonstrates resource allocation techniques and applyit for manpower plannin
			201012.5	Understandeconomical terms and different laws associated with project management

		201012.6	Applythe methods of project selection and recommend the best economical project
		201017.1	Identify the community/ practical/ societal needs and convert the idea into a product/ process/ service.
201017	Project Based Learning	201017.2	Analyse and design the physical/ mathematical/ ICT model in order to solve identified problem/project.
		201017.3	Create, work in team and applying the solution in practical way to specific proble

COURSE PATTERN 2019 (TE) TE(CIVIL)

YEAR	COURSE CODE	COURSE NAME	COURSE OUTCOME NO.	COURSE OUTCOMES
			301001.1	Understand government organizations, apply & analyzeprecipitation & its abstractions.
	201001		301001.2	Understand, apply & analyzerunoff, runoff hydrographs and gauging of streams.
		Hydrology and Water	301001.3	Understand, apply & analyzefloods, hydrologic routing & Q-GIS software in hydrology.
		Resource Engineering	301001.4	Understand, apply & analyzereservoir planning, capacity of reservoir & reservoir economics.
			301001.5	Understand water logging & water management, apply & analyze ground
			301001.6	Understand irrigation, piped distribution network and canal revenue, apply and analyze crop water requirement.
			301002.1	Define identify, describe reliability of water sources, estimate water requirement for various sectors
			Ascertain and interpret	Ascertain and interpret water treatment method required to be adopted with respect to source and raw water characteristics
	301002		301002.3	Design various components of water treatment plant and distribution system.
		Water Supply Engineering	301002.4	Understand and compare contemporary issues and advanced treatment operations and process available in the market, including packaged water treatment plants.
			301002.5	Design elevated service reservoir capacity and understand the rainwater harvesting.

Ĭ	11		301002.6	Understand the requirement of water treatment plant for infrastructure and Government scheme.
			301003.1	Demonstrate knowledge about the types of steel structures, steel code provisions and design of the adequate steel section subjected to tensile force.
TE (CERA V. TERM II)			301003.2	Determine the adequate steel section subjected to compression load and design of
TE (SEM-V,TERM-I)	200 200 000 000 000	Design of Steel	301003.3	Design eccentrically loaded column for section strength and column bases for axia
	301003	Structures	301003.4	Design oflaterally restrained and unrestrained beam with and without flange plate using rolled steel section.
			301003.5	Analyzethe industrial truss for dead, live and wind loadand design of gantry
			301003.6	Understand the role of components of welded plate girder and design cross section for welded plate girder including stiffeners and its connections.
			301004.1	Understand basics of construction economics.
	301004	Engineering Economics and Financial Management	301004.2	Develop an understanding of financial management in civil engineering projects.
			301004.3	Prepare and analyze the contract account.
			301004.4	Decide on right source of fund for construction projects.
			301004.5	Understand working capital and its estimation for civil engineering projects.
			301004.6	Illustrate the importance of tax planning & understand role of financial regulator bodies
		1	301005 c.1	Understand the overview of construction sector.
			301005c.2	Illustrate construction scheduling, work study and work measurement.
	000000000000000000000000000000000000000	Elective I:	301005 c.3	Acquaint various labor laws and financial aspects of construction projects.
	301005 c	Construction	301005c.4	Explain elements of risk management and value engineering.
		Management	301005 c.5	tate material and human resource management techniques in construction.
			301005c.6	Understand basics of artificial intelligence techniques in civil engineering.
	301011	Audit Course : Professional Ethics and Etiquettes/Sustainable Energy Systems	301011.1	Understandthebasicperceptionofprofession,professionalethics,various
			301011.2	Understandvarioussocialissues, industrial standards, code oethics and role of profession engineering field.
			301011.3	Follow ethics as an engineering professional and adopt good standards
			301011.4	Applyethicalprinciplestoresolvesituationsthatariseintheirprofessionallives

			TE(C	IVIL)
			301012.1	Recall sanitation infrastructure, quantification and characterization of wastewater, natural purification of streams
			301012.2	Design preliminary and primary unit operations in waste water treatment plant
		Waste Water	301012.3	Understand theory and mechanism of aerobic biological treatment system and to design activated sludge process
	301012	Engineering	301012.4	Understand and design suspended and attached growth wastewater treatment
			301012.5	Explain and apply concept of contaminant removal by anaerobic, tertiary and
			301012.6	Compare various sludge management systems and explain the potential of recycle and reuse of wastewater treatment
	301013	Design of Reinforced	301013.1	Apply relevant IS provisions to ensure safety and serviceability of structures, understand the design philosophies and behavior of materials: steel & concrete.
			301013.2	Recognize mode of failure as per LSM and evaluate moment of resistance for singly, doubly rectangular, and flanged sections.
TE (SEM-VI,TERM-II)			301013.3	Design & detailing of rectangular one way and two-way slab with different boundary conditions
			301013.4	Design & detailing of dog legged and open well staircase
			301013.5	Design & detailing of singly/doubly rectangular/flanged beams for flexure, shear, bond and torsion
			301013.6	Design & detailing of short columns subjected to axial load, uni-axial/bi-axial bending and their footings.
			301014.1	Articulate fundamentals and principles of RS techniques.
		1	301014.2	Demonstrate the knowledge of remote sensing and sensor characteristics
	5000000-00	Remote Sensing and	301014.3	Distinguish working of various spaces-based positioning systems.
	301014	GIS	301014.4	Analyze the RS data and image processing to utilize in civil engineering
		313	301014.5	Explain fundamentals and applications of RS and GIS
			301014.6	Acquire skills of data processing and its applications using GIS
		Elective II	301015.1	Apply the principles of architectural planning and landscaping for improving quali of life
	301015	Architecture and	301015.2	Understand the confronting issues of the area and apply the acts.

	1 1	Town Planning	301015.3	Evaluate and defend the proposals.
			301015.4	Appraise the existing condition and to develop the area for betterment.
	3010218	Audit Course- II	301021B.1	Analyze the safety problem with its solution
	302000		COURSE PATTE	RN 2015 (BE)
			BE(CI	VIL)
YEAR	COURSE CODE	COURSE NAME	COURSE OUTCOME NO.	COURSE OUTCOMES
			401001	Able to characterize sewage and design a sewage collection system.
			401001	Able to describe stream sanitation and design of primary treatment of sewage
	401001	Environmental Engineering – II	401001	Able to analyze and design secondary (biological) sewage treatment units for STP
			401001	Able to analyze and design low cost sewage treatment methods
			401001.1	Able to analyze and design anaerobic treatment units
			401001.1	Able to explain different industrial waste water treatment methods
	401002	Transportation Engineering	401 002.1	Able to explain necessity of highway planning, classification of roads and to determine length of different category roads.
			401 002.2	Able to describe traffic characteristics and trafic studies.
			401 002.3	Able to design geometric elements and structural design of rigid and flexible pavement
			401 002.4	Able to perform test on aggregate, bitumen as per IRC standards and explain the construction procedure of varius types of roads.
			401 002.5	Able to explain airport planning layout, orientation and to calculate basic runway length
			401 002.6	Able to calculate hydroulic parameters related to bridge, explain types of bridge and the components.
			401003	Able to describe various systems of prestressing and analyze member strength
			401003	Able to design Prestressed member for flexure and shear
			401003	Able to do load calculations and load transfer phenomenon of structures
	401003	Structural Design III	401003	Able to analyze the frame structure for different load combinations
BE(SEM-VII,TERM-I)	SIBRICARED:		401003	Able to design and detailing of floor beam in a frame
			401003	Able to design and detailing of different elements of special structures like retaining was liquid retaining structures, combined footings and their behavior under load

			401 004.1	Able to describe types of cement and aggregate to be used as a concrete and explain properties of concrete.
			401 004.2	Able to explain special types of concrete and their properties.
	401 004 (ELE-	Advanced Concrete Technology		Able to design special types of concrete mix of specified strength and able to describe
	1401004 (EEE		401 004.3	various nondestructive test.
	320		401 004.4	Able to know properities of concrete fiber like GFRC, SFRC and SIFCON.
			401 004.5	Able to describe ferrocement analysis and design of prefabricated concrete structural element.
			401 004.1	Able to formulate civil engineering problems in linear programing.
			401 004.2	Able to use concept of opration research for various engineering problems.
	401 004 (ELE-	Systems Approach in	401 004.3	Able to apply dynamic programming for civil engineering.
	1)	Civil Engineering	401 004.4	Able to use nonlinear programing techniques for solving engineering problems.
	1		401 004.5	Able to apply same theroy
		TQM & MIS in Civil	401 005.1	Explain the concept of quality in construction along with various terms of evolution.
1	401 005 (ELE-		401 005.2	Application of six sigma in construction industry.
	II)	Engineering	401 005.3	Understand concept of quality manual and quality circle.
	277	Lingingering	401 005.4	Application of 5 S technique and zero defect
			401 005.5	Explain importance of MIS in construction
			401007	Able to analyses and ,design gravity dam ,earthen dam and check its stability
	1 1		401007	Able to explain generalized information regarding dams
	401007	Dams and Hydraulics	401007	Able to design hydraulic structures
	401007	Structures	401007	Able to explain river training methods and design of guide bund
			401007.1	Able to explain hydropower engineering with respect to its components and functions
		Quantity Surveying,	401 008.1	Able to describe types of estimates and importance of approximate estimates.
	1 1	Contracts and	401 008.2	Able to prepare detailed estimate for Civil Engg. Structures.
	1 1	Tenders	401 008.3	Able to choose suitable method of valuation of property and implement it.
	401 008	(8000000	401 008,4	Able to draft suitable specifications to meet expectations of client and prepare rationallysis.
		1	401 008.5	Able to explain execution of works in PWD and Tendering.
		1	401 008.6	Able to illustate meaning, validity, conditions and laws of contract.
			401 009.1	Understand meteorological aspects governing the air pollution.

(

	1 1	1	401 009.2	Comprehend sampling and analysis of ambient air.
			401009	Describe and understand causes, sources, effects, measurement methods and control measures of indoor air pollution.
	401 009 (ELE-	Air Pollution and control	401 009.4	Understand various processes and equipments used for control of air pollution
BE (SEM-VIII,TERM-II)			401010	Understand economics of air pollution control and legislations used for air pollution control.
BE (SEMI-VIII, TERMI-II)			401 009.6	Comprehend methodology of environmental impact assessment and management and know environmental impacts of various industries.
		Construction Management	401 010.1	Able to understand concept of construction management by considering, risk management, material management & Human resource management.
	401 010 (ELE-		401 010.2	Able to apply the basics of construction scheduling, work study & work measurement.
	IV)		401 010.3	Able to understand Labour laws and financial aspects of construction projects Labour law
			401 010.4	Able to understand the basics of Artificial Intelligence Techniques in construction management.
			401 006 1	convert an open ended problems statement into a statement of proposed work.
		Project	401 006.2	Decompose problem/task in to subtask and establish a methodology and process by which progress may be evaluated.
			401 006.3	select and apply appropriate methods/models or mathematical simulation of the real world and analyze the data to provide information for decisions.
	401 006		401 006.4	perform feasibility analysis and evalutes quality of solutions to select the best one.
			401 006.5	Produce usable documents of record regarding the design process.
			401 006.6	Colaborate with team members to achieve a common goal.
			401 006.7	Enhance awareness and critical self examination of ones own values, and to appriciate the relavance of personal values in the business/work place and develop skills which recignizes and resolves ethical issues while working.

COURSE OUTCOMES

	Lancas and a	COURSE NAME		(COMPUTER)(2019 Pat.) COURSE OUTCOMES
EAR	COURSE CODE	COURSE NAME	VASE OUTCOME	Formulate problems precisely, solve the problems, apply formal proof techniques, and explain the
SE (SEM-III,			210241.3	reasoning clearly.
TERM-I)			210241.1	Apply appropriate mathematical concepts and skills to solve problems in both familiar and
			210241.2	unfamiliar situations including those in real-life contexts.
			210241-2	Design and analyze real world engineering problems by applying set theory, propositional logic and
			210241.3	to construct proofs using mathematical induction.
		100 10000000000000000000000000000000000	2.402.42.0	Specify, manipulate and apply equivalence relations; construct and use functions and apply these
	210241	Discrete Mathematics	210241.4	concepts to solve new problems.
			2102414	Calculate numbers of possible outcomes using permutations and combinations; to model and
			210241.5	analyze computational processes using combinatorics.
	1		2202423	Model and solve computing problem using tree and graph and solve problems using appropriate
			210241.6	algorithms.
			210242-0	Analyze the properties of binary operations, apply abstract algebra in coding theory and evaluate
			210241.7	the algebraic structures.
			2.202.7217	
			1	Design and algorithms to solve the programming problems, identify appropriate algorithmic strates
			210242.1	for specific application, and analyze the time and space complexity.
			100000000	Discriminate the usage of various structures, Design/Program/Implement the appropriate data
				structures; use them in implementations of abstract data types and identify the appropriate data
			210242.2	structure in approaching the problem solution.
		Fundamentals of Data		
	210242	Structures	210242.3	Demonstrate use of sequential data structures. Array and Linked lists to store and process data.
		20.000		Understand the computational efficiency of the principal algorithms for searching and sorting and
			210242.4	choose the most efficient one for the application.
				The Vertice and Control of the Contr
			210242.5	Compare and constrast different implementations of data structures(dynamic and static).
				Understand, implement and apply principles of data structures-stack and queue to solve
			210242.6	computational problems.
				Apply constructs- sequence, selection and iteration; classes and objects, inheritance, use of
			210243.1	predefined classes from libraries while developing software.
			210243.2	Design object-oriented solutions for small systems involving multiple objects.
	210243	Object Oriented	210243.3	Use virtual and pure virtual function and complex programming situations.
	0 :455005	Programming(OOP)	210243.4	Apply object-oriented software principles in problem solving.
			210243.5	Analyze the strengths of object-oriented programming.
1			210243.6	Develop the application using object oriented programming language(C++).

			identify the basic terminologies of Computer Graphics and interpret the mathematical foundation
		210244.1	of the concepts of computer graphics.
		210244.2	Apply mathematics to develop Computer programs for elementary graphic operations.
		210244.3	Illustrate the concepts of windowing and clipping and apply various algorithms to fill and clip polygons.
210244	Computer Graphics -	210244.4	Understand and apply the core concepts of computer graphics, including transformation in two ar three dimensions, viewing and projection.
		210244.5	Understand the concepts of color models, lighting, shading models and hidden surface elimination
	1 -	210244.6	Create effective programs using concepts of curves, fractals, animation and gaming.
	_	210245.1	Simplify Boolean Expression using K Map
	1 -	210245.2	Design and implement Combinational circuits
	I -	210245.3	Design and implement Sequential circuits
210245	Digital Electronics & Logic	210245.4	Develop Simple real world application using A5M and PLD
210245	Design	210245.5	Differentiate and choose appropriate logic families IC Packages as per the given design specificati
	1	210245.6	Explain organization and architecture of computer system.
		210246.1	Use algorithms on various linear data structure using sequential organization to solve real life problems.
210246	Data Structures Laboratory	210245.2	Analyze problems to apply suitable searching and sorting algorith to various applications.
		210246.3	Analyze problems to use variants of linked list and solve various real life problems.
		210246.4	Designing and implement data structures and algorithms for solving different kinds of problems. Understand and apply the concepts like inheritance, polymorphism, exception handling and gene
		210247.1	structures for implementing reusable programming codes.
		210247.2	Analyze the concept of file and apply it while storing and retrieving the data from secondary storages.
210247	OOP and Computer Graphics Laboratory	210247.3	Analyze and apply computer graphics algorithms for line-circle drawing, scan conversion and filling with the help of object oriented programming concepts.
	Section 200	\$10544.3	Understand the concept of windowing and clipping and apply various algorithms to fill and clip
	1 1	210247.4	polygons.
	1	210247.5	Apply logic to implement, curves, fractals, animation and gaming programs.
		210248.1	Understand the working of digital electronic circuits
210248	Digital Electronics Laboratory	210248.2	Apply the knowledge to appropriate IC as per the design specifications
	Control of the Contro	210248.3	Design and implement Sequential and Combinational digital circuits as per the specifications
		210249.1	Express effectively through verbal/oral communications and improve listening skills.
		210249.2	Write precise briefs or reports and technical documents.
	4	And the Print of the Control of the	Accord post residents and a committee of the committee of
	Business Communication	210249.3	Prepare for group discussions / meetings / interviews and presentations. Explore goal / target setting, self motivation and practicing creative thinking.

1		Jenna		
			210249.5	Operate effectively in multidisciplinery and heterogeneous teams through the knowledge of team work, interpersonal relationships, conflict management and leadership qualities.
-			210250.1	Aware of the various issues concerning humans and society.
		I +	210250.2	Aware about their responsibilities towards society.
		1	2.102.30.2	Sensitized about broader issues regarding the social, cultural, economic and human aspects,
		Humanity and Social	210250.3	involved in social changes.
	210250	Science	1101303	Able to understand the nature of the individual and the relationship between self and the
		Science	210250.4	community.
		1 1		Able to understand major ideas, values, beliefs, and experiences that have shaped human history
			210250.5	and cultures.
			*******	Understand the importance of environment friendly society.
			210251.1	Apply primary measures to reduce carbon emissions from their surroundings.
		AC3-I: Green Construction	210252.2	Learn role of IT solutions in design of green buildings.
		and Design	210253.3	Ceam total of 11 Solutions in occupator & earl service do.
- 1			210254.4	Understand the use of software systems to complete statutory compliances involved in the
			210251.1	Understand social issues and responsibilities as member of society.
		AC3-It: Social Awareness	100000000	
		and Governance Program	210252.2	Apply social values and ethics in decision making at social or organizational level
- 1			210253.3	Promote obstacles in national integration and role of youth for National Integration
- 1			210254.4	Demonstrate basic features of Indian Constitution.
		AC3-III: Environmental Studies	210251.1	Comprehend the importance of ecosystem and biodiversity
	210251		210252.2	Correlate the human population growth and its trend to the environmental degradation and develop the awareness about his/her role towards environmental protection and prevent
			210253.3	Identify different types of environmental pollution and control measures
- 1				
			210254.4	Correlate the exploitation and utilization of conventional and non-conventional resources
- 1			24/251 1	Understand the dynamic behavior of the urban system by going beyond the physical appearance and by focusing on representations, properties and impact factors
		1	210251.1	Explore the city as the most complex human-made organism with a metabolism that can be
		1 Restance Constitution	210252.2	modeled in terms of stocks and flows
		AC3-IV: Smart Cities		Knowledge about data-informed approaches for the development of the future city, based on
			210253.3	crowd sourcing and sensing
			210254.4	Knowledge about the latest research results in for the development and management of future cities
CORNE DE			210234.4	
(SEM-IV, ERM-II)			207003.1	Solve Linear differential equations, essential in modelling and design of computer-based systems.
Enlerej				Apply concept of Fourier transform and Z-transform and its applications to continuous and discrete
			207003.2	systems and image processing.
		Engineering Mathematics		Apply Statistical methods like correlation and regression analysis and probability theory for data
	207003	III	207003.3	analysis and predictions in machine learning.

	1 [207003.4	Solve Algebraic and Transcendental equations and System of linear equations using numerical techniques.
		207003.5	Obtain Interpolating polynomials, numerical differentiation and integration, numerical solutions of ordinary differential equations used in modern scientific computing.
		210252.1	Identify and articulate the complexity goals and benefits of a good hashing scheme for real world applications.
	I	210252.2	Apply non-linear data structures for solving problems of various domain.
	I		Design and specify the operations of a nonlinear-based abstract data type and implement them in
	Data Structures and	210252.3	high-level programming language.
210252	Algorithms	210252.4	Analysise the algorithmic solutions for resource requirements and optimization.
		210252.5	Use efficient indexing methods and multiway search techniques to store and maintain data.
		210252.6	Use appropriate modern tools to understand and analyze the functionalities confined to the secondary storage.
		210253.1	Analyze software requirements and formulate design solution for a software.
		210253.2	Design applicable solutions in one or more application domains using software engineering approaches that integrate ethical, social, legal and economic concerns.
	Software Engineering	2400000	Apply new software models, techniques and technologies to bring out innovative and novelistic
			solutions for the growth of the society in all aspects and evolving into their continuous profession
		210253.3	development.
210253		210253.4	Model and design User interface and component-level.
LAURDA		210253.5	Identify and handle risk management and software configuration management.
		210253.6	Utilize knowledge of software testing approaches, approaches to verification and validation.
		210253.7	Construct software of high quality – software that is reliable, and that is reasonably easy to understand, modify and maintain efficient, reliable, robust and cost-effective software solutions.
		210254.1	Exhibit skill of assembly language programming for the application
		210254.2	Classify Processor architectures.
	1 [210254.3	Illustrate advanced features of 80386 Microprocessor.
2022257		210254.4	Compare and contrast different processor modes.
210254	Microprocessor	210254.5	Use interrupts mechanism in applications
	1	210254.6	Differentiate between Microprocessors and Microcontrollers.
		210254.7	Identify and analyze the tools and techniques used to design, implement, and debug microprocessor-based systems.
		210255.1	Make use of basic principles of programming languages.
	1	210255.2	Develop a program with Cata representation and Computations.
	Principles of Burning	210255.3	Develop programs using Object Oriented Programming language : Java.
210255	Principles of Programming	210255.4	Develop application using inheritance, encapsulation, and polymorphism
	Languages	210255.5	Demonstrate Multithreading for robust application development.
		210255.6	Develop a simple program using basic concepts of Functional and Logical programming paradigm.

		210256.1	Understand the ADT/libraries, hash tables and dictionary to design algorithms for a specific problem.
	Commence and the		Choose most appropriate data structures and apply algorithms for graphical solutions of the
210256	Data Structures and	210256.2	problems-
	Algorithms Laboratory	210256.3	Apply and analyze non linear data structures to solve real world complex problems.
	I F	oce announce	Apply and analyze algorithm design techniques for indexing, sorting, multi-way searching, file
	1	210256.4	organization and compression.
		210256.5	Analyze the efficiency of most appropriate data structure for creating efficient
		210257.1	Understand and apply various addressing modes and instruction set to implement assembly language programs
210257	Microprocessor Laboratory	210257.2	Apply logic to implement code conversion
	1	210257.3	Analyze and apply logic to demonstrate processor mode of operation
		210258.1	Identify the real life problem from societal need point of view
	1	210258.2	Choose and compare alternative approaches to select most feasible one
	less e am e M	210258.3	Analyze and synthesize the identified problem from technological perspective
210258	Project Based Learning II	210258.4	Design the reliable and scalable solution to meet challenges
		210258.5	Evaluate the solution based on the criteria specified
	1	210258.6	Inculcate long life learning attitude towards the societal problems
	Code of Canduct	210259.1	Understandthe basic perception of profession, professional ethics, various moral and social issue industrial standards, code of ethics and role of professional ethics in engineering field. Awareof professional rights and responsibilities of an engineer, responsibilities of an engineer for safety and risk benefit analysis.
210259		210259.3	Understandthe impact of the professional Engineering solutions in societal and Environmental contexts, and demonstrate the knowledge of, and need for sustainable development
		210259.4	Acquireknowledge about various roles of engineers in variety of global issues and able to apply ethical principles to resolve situations that arise in their professional lives
		210260.1	Understand the global water cycle and its various processes
		210260.2	Understand climate change and their effects on water systems
	AC4-I: Water	210260.3	Understand Drinking treatment and quality of groundwater and surface water
	Management	210260.4	Understand the Physical, chemical, and biological processes involved in water treatment and distribution.
	AC4-II: Intellectual Property Rights and	210260.4	The state of the s
	Patents	210260.2	Identify, apply and assess principles of law relating to each of these areas of intellectual propert
210260		210260.3	Apply the appropriate ownership rules to intellectual property you have been involved in creating

1				
		AC4-III: The Science of	210260.1	Understand what happiness is and why it matters to you
- 1		AC4-III: The Science of Happiness	210260.2	Learn how to increase your own happiness
- 1			210260.3	Understand of the power of social connections and the science of empathy
- 1			210260.4	Understand what is mindfulness and its real world applications
			210260.1	Understand philosophy and religion as well as daily life issues will be challenged and enhanced.
		210260.2	Enhances the immune system.	
		Meditation		Intellectual and philosophical understanding of the theory of yoga and basic related Hindu scriptures will be developed.
		1	210260.3	Powers of concentration, focus, and awareness will be heightened.
			210260.4

AR	COURSE CODE	COURSE NAME		COURSE OUTCOMES
TE (SEM-		1 1	310241.1	Analyze and design Database sysem using ER model
V,TERM-I)		1	310241.7	Implement database queries using database language
		1 1	310241.3	Normalize the database design using normal forms
	310241	1	310241.4	Apply transaction management concept in real time situation
		Database Management System	310241.5	Use NOSQL database for processing unstructured data
			310241.6	Differentiate between complex datatypes and analyze the use of appropriate data types
			310242.1	To Understand formal language, translation logic, essentials of translation, alphabets, language representation and apply it to design Finite Automata and its variants
	20000	Theory of Computation	310242.2	To Construct regular expression to present regular language and understand pumping lemma
	310242		310242.3	To Design Context Free Grammars and learn to simplify the grammar
			310242.4	To Construct Pushdown Automaton model for the Context Free Language
			310242.5	To Devise Turing Machine for the different requirements outlined by theoretical computer science
			310242.6	To Analyze different classes of problems, and study concepts of NP completeness
			310243.1	Analyze and synthesize basic System Software and its functionality.
			310243.2	identify suitable data structures and Design & Implement various System Software
	555500	Systems Programming and	310243.3	Compare different loading schemes and analyze the performance of linker and loader
	310243	Operating System	310243.4	Implement and Analyze the performance of process scheduling algorithms
_		32. TO 100 TO 10	310243.5	Identify the mechanism to deal with deadlock and concurrency issues
			310243.6	Demonstrate memory organization and memory management policies
			310244.1	Summarize fundamental concepts of Computer Networks, architectures, protocols and technologies
			310244.2	Illustrate the working and functions of data link layer
	2022223	Computer Networks and	And the Second Property of the Second Propert	Analyze the working of different routing protocols and mechanisms
	310244	Security	310244.3	Implement client-server applications using sockets
			310244.4	Illustrate role of application layer with its protocols, client-server architectures
			310244.5	Comprehend the basics of Network Security
		1	310244.6	Comprehensible basics of network Sections

		310245(A).1	Understand the fundamentals and need of Embedded Systems for the Internet of Things
	310245(A): Internet of	310245(A).2	Apply toT enabling technologies for developing toT systems
- 1	Things and Embedded	310245(A).3	Apply design methodology for designing and implementing IoT applications
	Systems	310245(A).4	Analyze IoT protocols for making IoT devices communication
		310245(A).5	Design cloud based IoT systems
		310245(A).6	Design and Develop secured IoT applications
310245		310245(D).1	Comprehend Project Management Concepts
	1	310245(D).2	Use various tools of Software Project Management
	1	310245(D).3	Schedule various activities in software projects
	310245(D): Software	310245(D).4	Track a project and manage changes
	Project Management	310245(D).5	Apply Agile Project Management
		- on worker	Analyse staffing process for team building and decision making in Software Projects and
		310245(D).6	Management Design ER model for given requirements and convert it into database tables
- 1	1	310246.1	Design schema in appropriate normal form considering actual requirements
		310246.2	Implement SQL queries for given requirement using different SQL concepts
opening man	Database Management - System Lab	310246.3	Implement SQL queries for given requirement using university squ conveyor
310246		310246.4	Implement PL/SQL code block for given requirements
		310246,5	Implement NOSQL queries using MONGO DB
		310246.6	Design and Develop application considering actual requirement and using database concepts
		310247.1	Analyze the requirements of network types, topology and transmission media
	1	310247.2	Demonstrate error control, flow control techniques and protocols and analyze them
310247	Computer Networks and	310247.3	Demonstrate the subnet formation with IP allocation mechanism and apply various routing algorithms
320641	Security Laboratory	310247.4	Develop Client-Server architectures and prototypes
		310247.5	Implement web applications and services using application layer protocols
		310247.6	Use network security services and mechanisms
	1	310248.1	Implement language translators
		310248.2	Use tools like LEX and YACC
		310248.3	Implement internals and functionalities of Operating System
310248	Laboratory Practice I	310248.4	Design IoT and Embedded Systems based application, Apply Software Project Management too
	View - Surger Management	310248.5	Develop smart applications using IoT, Implement software project planning and scheduling
		310248.6	Develop to Tapplications based on cloud environment, Analyse staffing in software project
		310249.1	Analyze a latestropic of professional interest
310249	Seminar and Technical	310249.2	Enhancetechnical writing skills
310249	Communication	310249.3	identify an engineering problem, analyze it and propose a work plan to solve it
	190000000000000000000000000000000000000	310249.4	Communicate with professional technical presentation skills
		310250(8).1	Summarize the principles of proper courtesy as they are practiced in the workplace.
	Audit Course 5-	310250(8).2	Apply proper courtesy in different professional situations.

	310250(B)	Professional Ethics and Etiquettes	310250(B).3 310250(B).4	Practice and apply appropriate etiquettes in the working environment and day to day life. Build proper practices personal and business communications of Ethics and Etiquettes
TE (SEM-			310251.1	Analyze needs and challenges for Data Science Big Data Analytics
TERM-II)		I	310251.2	Apply statistics for Big Data Analytics
1.572000000000000000000000000000000000000		Data Science and Big Data	310251.3	Apply the lifecycle of Big Data analytics to real world problems
	310251	Analytics	310251.4	Implement Big Data Analytics using Python programming
		1 1	310251.5	Implement data visualization using visualization tools in Python programming
			310251.6	Design and implement Big Databases using the Hadoop ecosystem
1			310252.1	Implement and analyze behavior of web pages using HTML and CSS
		1 1	310252.2	Apply the client side technologies for web development
		1	310252.3	Analyze the concepts of Servlet and JSP
	310252	Web Technology	310252.4	Analyze the Web services and frameworks
			310252.5	Apply the server side technologies for web development
			310252.6	Create the effective web applications for business functionalities using latest web development platforms
			310253.1	To Identify and apply suitable Intelligent agents for various Al applications
		1	2000000	To Build smart system using different informed search / uninformed search or heuristic
	310253	1 1	310253.2	approaches
		Artificial Intelligence	310253.3	To Identify knowledge associated and represent it by ontological engineering to plan a
				strategy to solve given problem
			310253.4	To Apply the suitable algorithms to solve Al problems
			310253.5	To implement ideas underlying modern logical inference systems
			210233.3	To Represent complex problems with expressive yet carefully constrained language of
			310253.6	representation
-			310254(C).1	Understand the different Cloud Computing environment
		1	310254(C).2	Use appropriate data storage technique on Cloud, based on Cloud application
			310254(C).3	Analyze virtualization technology and install virtualization software
	310254(C)	Cloud Computing	310254(C).4	Develop and deploy applications on Cloud
			310254(C).5	The state of the s
			310254(C).6	
- 1			310254(0).6	To demonstrate professional competence through industry internship.
		1		To apply knowledge gained through internships to complete academic activities in a profession
		4	310255.2	To choose appropriate technology and tools to solve given problem.
		10 100-00-000 10	310255.3	To choose appropriate technology and tools to solve given product
	310255	Internship	310255.4	To demonstrate abilities of a responsible professional and use ethical practices in day to day life
			310255.5	To Create network and social circle, and developing relationships with industry people.
			310255.6	To analyze various career opportunities and decide carrier goals
1			310256.1	Apply principles of Data Science for the analysis of real time problems
			310256.2	Implement data representation using statistical methods
		Data Science and Big Data	310256.3	Implement and evaluate data analytics algorithms
	310256	Analytics Laboratory	310256.4	Perform text preprocessing

		2		The state of the s
- 1		l.	310256.5	implement data visualization techniques
			310256.6	Use cutting edge tools and technologies to analyze Big Data
9	310257 310258		310257.1	Understand the importance of website planning and website design issues
		Web Technology Laboratory	310257.2	Apply the client side and server side technologies for web application development
			310257.3	Analyze the web technology languages, frameworks and services
			310257.4	Create three tier web based applications
- 3		Lab Practice III Audit Course 6-Digital and Social Media Marketing Statistics and Machine Learning(Honours in Data Science)	310258.1	To Design a system using different informed search / uninformed search or heuristic
				approaches
				To Apply basic principles of Al in solutions that require problem solving, inference,
			310258.2	perception, knowledge representation, and learning
			310258.3	To Design and develop an interactive AI application
			310259(A).1	Understand the fundamentals and importance of digital marketing
	210250(4)		310259(A).2	Use the nower of social media for business marketing
	310259(A)		310259(A).3	Analyze the effectiveness of digital marketing and social media over traditional
1			310503.1	Apply appropriate statistical measure for machine learning applications
T T			310503.2	Usage of appropriate descriptive statisticsmeasures forstatistical analysis
			310503.3	Usage of appropriate statistics inference for data analysis
	310503		310503.4	Identify types of suitable machine learning techniques
	STORESTONE:			Apply regression techniques to machine learning problems
			310503.5	Apply decision tree and Naïve Bayes modelto solve real time applications
			310503.6	E(COMPUTER)(2015 Pat.)

			410246.2	assignments of the core courses
	410247	Laboratory Practice II	410247.1	Practical hands on is the absolute necessity as far as employability of the learner is concerned
			410247.2	The presented course is salely intended to enhance the competency by undertaking the laborato assignments of the core courses. Enough choice is provided to the learner to choose an elective or one"s interest.
	410248	Project Work Stage I	410248.1	Solve real life problems by applying knowledge.
			410248.2	Analyze alternative approaches, apply and use most appropriate one for feasible solution.
			410248.3	Write precise reports and technical documents in a nutshell.
3			410248.4	Participate effectively in multi-disciplinary and heterogeneous teams exhibiting team work, inter- personal relationships, conflict management and leadership quality.
	410249 410250	410249: Audit Course 5- AC5 – V: Emotional Intelligence Machine Learning	410249.1	Expand your knowledge of emotional patterns in yourself and others
			410249.2	Discover how you can manage your emotions, and positively influence yourself and others
			410249.3	Build more effective relationships with people at work and at home
			410249.4	Positively influence and motivate colleagues, team members, managers
			410249.5	Increase the leadership effectiveness by creating an atmosphere that engages others
BE(SEM-			410250.1	Distinguish different learning based applications
ILTERM-II)			410250.2	To design and model using UML for a given software system
iii, (ENW-II)			410250.3	Apply different preprocessing methods to prepare training data set for machine learning. Design and implement supervised and unsupervised machine learning algorithm.
			410250.4	
			410250.5	Implement different learning models
			410250.6	Learn Meta classifiers and deep learning concepts
	410251	Information and Cyber Security	410251.1	Gauge the security protections and limitations provided by today's technology.
			410251.2	Identify information security and cyber security threats.
			410251.3	Analyze threats in order to protect or defend it in cyberspace from cyber-attacks.

1		410251.4	Build appropriate security solutions against cyber-attacks.
			Recognize and classify embedded and real-time systems
		410252C.1	1 2 4 4 and and since contains
Elective III- 410252(C)		410252C-2	Explain communication bus protocols used for embedded and real-time systems
	Embedded and Real Time - Operating Systems	410252C.3	Classify and exemplify scheduling algorithms
		410252C.4	Apply software development process to a given RTOS application
		410252C.5	Design a given RTOS based application
		4102326-3	Apply soft computing methodologies, including artificial neural networks, fuzzy sets, fuzzy logic,
	1	410252D.1	6 informer systems and penetic algorithms
Elective III-	l }	4102520.1	Design and development of certain scientific and commercial application using computational
410252(D)	222		neural network models, fuzzy models, fuzzy clustering applications and genetic algorithms in
	Soft Computing and	410252D.2	specified applications
	Optimization Algorithms		Evaluate the basics of human and computational abilities and limitations.
		410253B.1	Inculcate basic theory, tools and techniques in HCI.
	(Human Computer Interface		Inclicate data: theory, toda and scomment
ctive IV-410253		4102538.2	Apply the fundamental aspects of designing and evaluating interfaces.
		4102538.3	Apply the fundamental aspects of design systems that are usable by people
		410253B.4	To install cloud computing environments.
10000	Cloud Computing	410253C.1	
410253(C)		410253C.2	To develop any one type of cloud
		410253C.3	To explore future trends of cloud computing Practical hands on is the absolute necessity as far as employability of the learner is concerned.
	Laboratory Practice III	410254.1	The presented course is solely intended to enhance the competency by undertaking the laborator
410254			
		410254.2	assignments of the core courses Practical hands on is the absolute necessity as far as employability of the learner is concerned.
		410255.1	The presented course is solely intended to enhance the competency by undertaking the laborator
410255	Laboratory Practice IV		The presented course is solely intended to enhance the component of
410255			assignments of the elective courses. Enough choice is
		410255.2	provided to the learner to choose an elective of one's interest
		410455.1	Show evidence of independent investigation
	Project Work Stage II	To accessore	Critically analyze the results and their interpretation.
		410455.2	for how and placing the open questions in the riv
410256		*********	Report and present the original results in an orderly way and placing the open questions in the ripperspective.
		410455.3	Link techniques and results from literature as well as actual research and future research lines wi
			the research.
		410455.4	Appreciate practical implications and constraints of the specialist subject
		410455.5	Appreciate president impresident and control of
410257	Audit Course 6		Appreciate practical implications and constraints of the specialist subject Apply the concepts of Business Intelligence in real world applications Explore and use the data warehousing wherever necessary
	AC6 — I: Business	410257.1	Explore and use the data warehousing wherever necessary
	Intelligence	410257.2	
	A SYNAMOUS .	410257.3	Design and manage practical Bi systems S Principal Of
