Minutes of Meeting of Department Advisory Board (DAB)

The Department Advisory Board's first Meeting of A.Y. 2023-24 is conduct on 22 July 2023 in Department Library from 11.00 am 1.00 pm

Agenda

1. Welcome address
2. Detailed Department Activities conducted and planned in A.Y. 2023-24 by HOD.
3. Feedback, Suggestions from members
4. Any other point with permission of chair
5. Vote of Thanks

Following points are discussed in the meeting

- 1) Dr. Soumitra Das, HOD , Computer Engineering, briefed about the last year DAB meeting suggestions and action taken.
- 2) Mr. Omkar Mahajan suggested, students should use Github free membership to improve the coding knowledge.
- 3) Mr. Shyamsunder Ingle suggested to give more focus on core subjects such as cloud, Linux, database etc.
- 4) Dr. Dilip Kumar Saini, suggested that in third year only sessions on the research and writing paper should be conducted.
- 5) Mr. Omkar Mahajan suggested to motivate students to do Redhat Courses & global Certifications.
- 6) Mr. Omkar Mahajan also suggested to have Digital portfolio to be created by students,
- 7) Mr. Shyamsunder Ingle suggest to make good alumni Network. Assign Alumni as a Mentor to the final year students.

- 8) Dr. Dilip Kumar Saini & Dr. Sunil Rathod suggest to give Community problem as project topics and the gap between Industry and Academics should be reduced.

DAB Coordinator, Dr. Vikas Nandgaonkar concluded the meeting with thanks to all members for their valuable time and suggestions.

(Dr. Vikas Nandgaonkar)
DAB Coordinator

(Dr. Soumitra Das)
HOD, Computer Engineering

CO-PO mapping Operating systems

CO\PO	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO 1	PSO 2	PSO 3
IT14.1	1	1	--	--	--	--	--	--	--	--	--	2	--	--	--
IT14.2	1	1	--	--	--	--	--	--	--	--	--	2	--	--	--
IT14.3	1	1	--	--	--	--	--	--	--	--	--	2	--	--	--
IT14.4	1	1	2	--	--	--	--	--	--	--	--	2	--	2	--
IT14.5	1	1	2	--	--	--	--	--	--	--	--	2	--	2	--
CO mapping	--	--	--	--	--	--	--	--	--	--	--	2	--	2	--
CO AVERAGE	1	1	2	--	--	--	--	--	--	--	--	2	--	2	--

- 3 Substantial (High/Strong)
2 Moderate (Medium)
1 Slight (Low/Poor)

Justification of CO-PO Mapping

PO1	Knowledge
PO2	Analyse
PO3	Design
PO4	complex problem
PO5	modern tools
PO6	society
PO7	Environment
PO8	ethics
PO9	team work
PO10	communication
PO11	project management & finance
PO12	life long learning

Therefore it is highly correlated to PO1,PO3

IN OS student is getting very good knowledge about the operating systems concepts.
Therefore PO1 is highly correlated to PO3

Prof.Mr.Milind Deshpande
Subject Teacher

Dr.Dorshana Desai

Report on ICT tools usage

Date: 18/4/2024

"We need technology in every classroom and in every student and teacher's hand, because it is the pen and paper of our time, and it is the lens through which we experience much of our world." - David Warlick

ICT is widely used in our everyday life, and its need is ever-growing in the education sector. Images, audios, videos, presentations, or a combination of these used for teaching constitute ICT in education.

We, at Computer Engineering Department, utilize different ICT tools in teaching learning process. We conduct Theoretical lectures and demonstration of Practical assignments on Projectors by using PowerPoint presentation.

Departmental Files are digitized on One Drive. Student's academic feedback is taken using Google forms. Individual faculties make use of One drive for storing their Course materials which are shared with students.

Important notifications are being shared on official email and whatsapp group for the faster communication to both students and parents.

Minutes of MCA Faculty Meeting on Date (28/08/2023)

Venue: HOD CABIN

Time: 4:00 pm

Agenda: Preparation of Academic Planner for the Session Nov_Dec 2023 AY 2023-2024

Minutes of the meeting:

Action Taken: Subject Allocation, Portfolios assigned

Following points are discussed in the meeting

1. Commencement of classes / Teaching from 08/08/2023
2. Conclusion of classes/Teaching in last Month of Nov23
3. Term end on 02/12/2023
4. Guest Lectures to be conducted on 2nd and 4th Saturday
5. Induction First Week of Sept23
6. Feedback from students
7. Monthly defaulter list preparation
8. Unit Test I from 25 September 23 to 30 September 23
9. Unit Test II from 23 October 23 to 27 October 23
10. Internal Exam November 23 end and result in first week of December 23

Report On

Topic: Career Avenues for MCA

Date: 8th September, 2023

Participants: FYMCA & SYMCA students

Venue: C.K.Pralhad Hall, 4th Floor

Guest Lecture by: Mr. Atul Kahate

Brief Description:

Guest Lecture for FYMCA & SYMCA students was conducted in the C.K.Pralhad Hall, 4th Floor. The program aimed to provide students with in-depth knowledge and practical experience in various changing IT Jobs landscape and career paths in IT.

Mr. Atul Kahate covers the following topics in details

1. Software Development
Java, Python, .NET, SQL, PHP
2. Full Stack Development
Angular, Node.js, React, Microservices
3. Data Science
Python, Statistics, Data Analytics
4. Artificial Intelligence/Machine Learning
Prompt Engineers, Deep Learning. AI Model Creation
5. Cyber Security
Computer networks, TCP/IP, Cryptography, Ethical hacking
6. Blockchain
Blockchain technology understanding
7. Cloud
AWS, Azure, GCP
8. DevOps
Docker, Kubernetes, Jenkins

Report On “Entrepreneurship...The Way Ahead Session”

Institution's Innovation Council at ICEM & MCA Department organizes session on “Entrepreneurship.....The way ahead” on 15th March, 2024. The objective of the entrepreneurship session was to introduce students to the concept of entrepreneurship, its importance in today's world, and to provide them with essential insights and tools to foster their entrepreneurial mindset.

The entrepreneurship session commenced with an introduction to the concept of entrepreneurship, emphasizing its significance in driving innovation, creating job opportunities, and contributing to economic growth. Through interactive discussions and real-life examples, students were encouraged to explore the traits and characteristics of successful entrepreneurs, such as resilience, creativity, and adaptability.

Key Topics Covered:

- 1. Understanding Entrepreneurship:** The session began by defining entrepreneurship and differentiating it from traditional employment. Students learned about the various forms of entrepreneurship, including startups, social entrepreneurship, and intrapreneurship within existing organizations.
- 2. Identifying Opportunities:** Participants were guided through the process of recognizing entrepreneurial opportunities in their surroundings. They were encouraged to observe market gaps, consumer needs, and emerging trends as potential areas for innovation and business ventures.
- 3. Business Planning:** An overview of the importance of business planning was provided, highlighting the significance of clear goals, market analysis, financial projections, and strategic planning in launching and sustaining a successful venture.

4. **Financial Management:** Basic principles of financial management, including budgeting, cash flow management, and fundraising, were covered to equip students with the necessary financial skills for managing their ventures.

5. **Networking and Resources:** The importance of building a strong network of mentors, advisors, and industry connections was emphasized, along with the availability of resources and support systems for aspiring entrepreneurs, such as incubators, accelerators, and funding opportunities.

Title – “Real Time Sign Language Recognition Using a Hybrid Neural Network”

Group members –

1	Aditya Narayan	[B190524201]
2	Aditya Pimpale	[B190524308]
3	Sandeep Verma	[B190524338]
4	Gaurav Vetal	[B190524339]

Project Guide: Dr. Soumitra Das

Project Coordinator: Dr. Sunil D. Rathod

Abstract – This system breaks new ground in bridging the communication gap by offering real-time sign language translation. Powered by a cutting-edge hybrid Neural Network Model (NNM), it achieves remarkable accuracy exceeding 96%. The NNM leverages the efficiency of a pre-trained model for recognizing general features in images, while incorporating a custom-trained model specifically designed to identify the intricacies of sign language gestures. This innovative two-pronged approach ensures both speed and accuracy in the translation process.

To achieve this high level of performance, the system employs a sophisticated pre-processing stage. It focuses on the user's hand by isolating the relevant region within the video frame. This eliminates background distractions and allows the system to extract the key features crucial for accurate sign language recognition. The extracted features are then fed into the NNM, which translates the hand gestures into corresponding text in real-time.

This innovation transcends technological advancements; it empowers deaf and hard-of-hearing individuals by fostering a more inclusive and accessible communication environment. Imagine the possibilities: students can receive real-time feedback to enhance their sign language learning, video conferences can become truly inclusive with sign language captions, and public kiosks can provide instant sign language translation, all thanks to this groundbreaking system.

Photograph:-

Block diagram:-

Working Principle: -

- The system relies on Google MediaPipe to identify hand gestures in real-time. Users sign within the camera's view, and MediaPipe isolates their hand in the video frame. This hand image is fed into our deep learning model, which translates the hand gesture into text, displayed on a user-friendly interface built with Flask.

Advantages: -

- 1] **Real-time processing:** Thanks to Google MediaPipe, hand gestures are identified as the user signs, enabling smooth and immediate translation.
- 2] **Focuses on relevant data:** MediaPipe isolates the hand region, eliminating background noise and distractions, which can improve the accuracy of the deep learning model.
- 3] **User-friendly interface:** The Flask framework allows for a clear and easy-to-understand interface where the translated text is displayed.
- 4] **Accessibility:** By leveraging a webcam, the system is likely accessible and doesn't require any special hardware for users.

Limitations:-

1. **Limited vocabulary:** The system might not recognize all existing signs, especially less common or regional variations.
2. **Environmental dependence:** Lighting changes or occlusions (e.g., covering the hand) could impact MediaPipe's ability to track the hand and potentially lead to translation errors.
3. **Sign language nuances:** Sign languages often incorporate facial expressions and body movements for additional meaning. The system, focusing solely on hand gestures, might miss these subtleties.

Applications:-

1. Allows easy interaction with mute people.
2. Provides intuitive interface.

Conclusion:- We firmly posit that this real-time sign language recognition system, powered by a groundbreaking hybrid Neural Network Model, paves the way for a more inclusive future. By seamlessly translating sign language into text with exceptional accuracy, it empowers deaf and hard-of-hearing individuals, shattering communication barriers and fostering a society built on understanding.

Stakeholder Feedback Report about Curriculum (2023-24)

The Indira College of Engineering and Management has its stakeholder's feedback system in which it receives feedback from various stakeholders namely, Students, Teachers, Alumni and Employer.

This feedback plays a vital role in the design and development of the curriculum and its implementation for institutional development.

Objectives:

- To upgrade the teachers in order to improve delivery and /or content of the curriculum.
- To improve the overall quality of the institute as par the stakeholder's expectations.
- To provide students with the opportunity to comment on the quality of their learning experiences.

Feedback Analysis Report related to Curriculum for A.Y. 2023-24

Students Feedback Analysis Report about Curriculum (A.Y. 2023-24)

A1. Addition of new contents required in the existing Curriculum.

465 responses

If yes then your opinion:

1. New programming languages should be introduced, such as JavaScript, React.js, Node.js, and MongoDB.
2. Students should learn topics that are useful for seeking jobs. New techniques needed in the industry should be added.
3. C programming language, PBL in each semester, Java programming laboratory, removal of writing work from most of the subjects, Python programming language should be taught in the third year, and more intense focus on C and C++.
4. A separate C language course should be introduced along with a lab.
5. Industry-related technologies like App Development, Web Development, and Cybersecurity should be introduced one by one in each semester.
6. Must include Mathematics, Statistics, and new emerging technologies like Advanced Deep Learning and Generative AI.
7. Advanced industry-oriented and currently relevant technologies should be added to the syllabus.
8. AI-based and technical practical courses should be included. Workshops need improvement, focusing on AI and cybersecurity.
9. Industrial visits should take place, and current scenario-based studies should be provided.
10. For small start-ups, the college should provide lectures from industry experts.
11. Real-life applicable concepts and topics such as web development, software development, and general-purpose programming should be taught.

A2. Whether curriculum is applicable and relevant to real life situation?

A3. Curriculum offers Learning value in terms of skills, concepts, knowledge & analytical abilities.

A4. Overall opinion about content of curriculum.

A5. How do you rate academic performance of the institution?

6. Overall opinion and suggestions about the ambience of the institution

1. Good.
2. All good.
3. It's good.
4. Poor. Labs and corridors are too dark. Labs need proper lighting and air conditioning.
5. The campus needs improvement. The authorities should build a basketball court for students. The cricket ground should be accessible to everyone for playing.
6. More xerox centers are needed, and attendance should be marked for every lecture and practical session.
7. Comfortable Space: Ensure that common areas, such as student lounges and study halls, have comfortable seating and proper lighting to facilitate relaxation and productivity.
8. Inspiring Décor: Incorporate inspirational quotes, artwork, and displays of student achievements to create a motivating and uplifting environment.
9. Green Spaces: Include greenery and natural elements, such as plants and indoor gardens, to promote calmness and well-being.
10. Variety in Design: Offer a variety of spaces with different designs to cater to diverse needs, including quiet study areas, collaborative spaces, and recreational zones.
11. Tech Integration: Provide access to modern technology and amenities, such as charging stations, high-speed Wi-Fi, and multimedia resources, to support academic and extracurricular activities.
12. Cleanliness and Maintenance: Ensure that the campus is well-maintained, clean, and organized to create a positive impression and enhance overall comfort.
13. Safety Measures: Implement safety measures, such as adequate lighting, emergency response systems, and a visible security presence, to promote a secure environment for everyone.

Faculty Feedback Analysis Report about Curriculum (A.Y. 2023-24)

1. Whether Curriculum offers Various Research Possibilities?

20 responses

2. Whether Curriculum bridge the gap between Industry and Academia.

20 responses

If no then your opinion:

- 1.It bridges to some extent for sure but not entirely.
- 2.Microprocessor - As its basic or core subject there is no much scope for this,but it can have few topic can be added
3. No Industry based Problem Solution

3. Time required for completion of the Curriculum.

20 responses

4. Would you like to suggest any changes in the curriculum to BOS of the university?

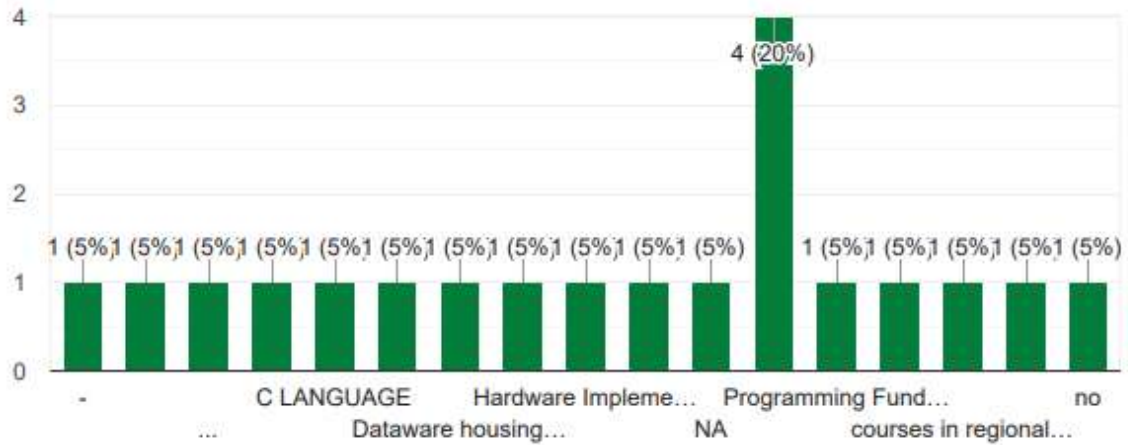

1. Shall take more practical orientation As per industry requirements need to change syllabus
2. Introducing use of software and AI in construction field.
3. There should enough learning time to students Need to restructure syllabus It's Good.
4. Yes for Software Engineering agile methodology and its use in PM can be elaborated with depth
5. Second sem-II insem paper should be in feb. month. So students will get sufficient time for end exam. ...
6. Students should be motivated for industrial training through curriculum itself

5. Do you suggest any value addition courses to Institute / Department for better student learning?

20 responses

How do you rate Campus Environment?

20 responses

How do you rate Sports Facility?

20 responses

How do you rate Canteen Facility?

Copy

Alumni Feedback Analysis Report about Curriculum (A.Y. 2023-24)

1. Whether the curriculum satisfied the current Industry skill set

22 responses

Suggestions if any

6 responses

NA

Curriculum should be based on Current industry affairs and Practical only

Syllabus should updated every year and faculty should teach students industrial highly demand skills

Stay updated

No

add industry training and hands-on experiences

2. Whether Curriculum includes the advanced technological and Multidisciplinary concepts.

22 responses

3. Benefit of Fundamental knowledge gained in Professional life

22 responses

4. Is there any requirement of addition in the curriculum to bridge the gap between industry ?

22 responses

5. Overall opinion about content of curriculum.

22 responses

In curriculum should include current business person knowledge and experience

There should be some short course which can give students a direct interaction with industry and experts in the same.

Teach new technology and new market trends

Practical industry knowledge, Excel and email etiquette

Internship programs must be introduced

Representation skills of power apps

How do you rate the academic performance of the institution.

22 responses

Overall opinion and suggestions regarding the ambience of the institution.

22 responses

NA
-
Very good ambience
I was a part of ICEM in 2016,18 batch, overall experience was good need some good industry visit for students so they get some knowledge regarding current business standard.
Good
Could do better
Real life example
Ambience of the institute is good
